

About

The Canadian World Education Foundation (CWEF) is a non-profit tax-exempt charitable organization committed to the education of underprivileged children throughout the world. CWEF is divided into four chapters - Kenya, Canada, India and Tanzania. CWEF Tanzania works collaboratively with the Saidia Agriculture and Social Care Organization (SASCO), a registered NGO in Tanzania founded and operated by Tanzanians for Tanzanians. A truly ground-up approach is taken on all initiatives. Currently, we are providing education sponsorship for 18 students who would otherwise be unable to attend school. Our core objectives are to:

- Empower vulnerable children through education sponsorship
- Assist in the provision of consistent care and nourishment to sponsored children
- Prepare the young generation to become agents for positive changes in their communities
- Provide support in community development initiatives
- Promote self-sufficiency and self-reliance
