Teaching Assistant, September 2003- August 2005

York University

Responsibilities included administration and grading of exams and quizzes, conducting laboratories, and providing assistance to students for Research Methods, Anatomy, and Health Psychology courses.

PROFESSIONAL EXPERIENCE

Acting Special Advisor to the Director of Research, October 2013 to present

Correctional Service of Canada, Research Branch

Position includes management of requests from senior management, providing advice and recommendations on issues relevant to the Research Branch, preparing and editing correspondence, reviewing and editing research publications, and working with administrative assistants to manage the office of the Director of Research. Also assist with budget and human resources issues for the Research Branch.

Research Manager, January 2011 – September 2013

Correctional Service of Canada, Research Branch

Responsible for the design, implementation, and management of national projects, management of interdisciplinary research teams, completion of staffing processes, long-term planning, and budgets. Responsibilities also include planning and conducting research projects (including consultations with internal and external stakeholders), writing reports, data analysis, and dissemination of research projects and results, including writing briefing notes and briefing senior management and stakeholders on results and implications.

Acting Senior Research Manager, August 2012 to November 2012

Correctional Service of Canada, Research Branch

In addition to responsibilities as Research Manager, additional responsibilities included engagement in senior management meetings, and additional planning and decision-making.

Senior Research Officer, April 2009 – January 2011

Correctional Service of Canada, Research Branch

Responsibilities included planning and conducting research projects, writing reports, data analysis, and dissemination of research projects and results, including writing briefing notes and briefing senior management on results and implications. In addition, management of projects, junior staff, and project budgets.

Research Officer, April 2008 – April 2009

Correctional Service of Canada, Research Branch

Responsibilities included planning and conducting research projects, writing reports, data analysis, supervising research assistants, and dissemination of research projects and results.

Research Assistant, February 2007 – March 2008

Correctional Service of Canada, Research Branch

Responsibilities include data analysis, report writing, file coding, literature review, development of ethics and research proposal process, and organization of research forums.
