COURSE DESCRIPTION

Legal Issues in Electronic Commerce is a collection of published materials, including articles, legislations, and cases. Designed to encourage readers to understand and analyze issues that surround e-commerce with an open mind — a necessity for a landless, rapidly changing technological world, the book looks at e-commerce from the perspectives of various disciplines — economics, geography, sociology, psychological, political, and statistical. Offering readers an understanding of the interest and expectations of these disciplines, the book proceeds to introduce important legal issues surrounding e-commerce: regulation, jurisdiction, domain name registrations, government support, contract issues, and consumer issues are thoroughly covered. As in the past, materials in

this fourth edition are carefully selected to offer readers the latest development of the rapidly changing and ever-expanding e-commerce field.
