

## Course Outline

COURSE:	LAWS 4801D - Risk & the Legal Process		
TERM:	Winter 2012		
PREREQUISITES:	Fourth year Honours standing		
CLASS:	Day & Time:	Monday 11:35-14:25	
	Room:	Please check Carleton Central for current room location	
INSTRUCTOR: (CONTRACT)	T. Ashtakala		
CONTACT:	Office:	B442 LA (Contract Instructors' Office)	
	Office Hrs:	By appointment only	
	Telephone:	613-297-1183	
	Email:	<a href="mailto:Tara.Ashtakala@carleton.ca">Tara.Ashtakala@carleton.ca</a>	

"Students with disabilities requiring academic accommodations in this course must contact a coordinator at the Paul Menton Centre for Students with Disabilities to complete the necessary Letters of Accommodation. After registering with the PMC, make an appointment to meet and discuss your needs with me in order to make the necessary arrangements as early in the term as possible, but no later than two weeks before the first assignment is due or the first test requiring accommodations. For further information, please see: <http://www2.carleton.ca/pmc/students/accommodations> . If you require accommodation for your formally scheduled exam(s) in this course, please submit your request for accommodation to PMC by 7 March 2012 for April exams. For Religious and Pregnancy accommodations, please contact Equity Services, x. 5622 or their website: [www.carleton.ca/equity](http://www.carleton.ca/equity)

---

**COURSE DESCRIPTION**

Risk management is **not just for business majors** anymore; it is an increasingly important aspect of both public and private activities. Nowadays, the ability to anticipate the consequences in law of a proposed or uncontrollable event is essential for legal counsel, whether your client is an individual involved in an everyday consumer transaction or a construction company carrying out a megaproject or a government institution concerned with protecting the safety of the public. Policies, contracts and even lifestyles need the rigorous scrutiny of the legal professional in order to avoid lawsuits or other adverse legal consequences. This course is intended to introduce students of law and legal studies to the situations, actors, methodology and societal impact of risk management. **You will be surprised and intrigued by the diversity of issues that you will be exposed to in this course and you will use the skills you learn herein in your future law-related career.**

**COURSE OBJECTIVES**

- to identify situations of risk with legal implications
- to determine which actors (individuals, governments, courts) are affected by the risk issue
- to evaluate the strategies employed by those actors for preventing or mitigating (ie managing) the risk
- to explore the impact of the risk and its management on law and society as a whole

**REQUIRED TEXTS**

Most of the required readings will be posted on WebCT; those assigned readings not posted on WebCT will be accessible on the Web.

**EVALUATION****All three (3) components must be completed in order to obtain a passing grade****(1) Term Essay- 40% of final grade**

- essay due in class on 2 April 2012
- Length: 12-15 pages double-spaced, proper legal citation and bibliography required
- Format: the paper must embody the Course Objectives above
- The task for the Term Essay is to perform a risk analysis on a topic of interest to the student; the goal of the exercise is to demonstrate that the four point methodology above can be used to evaluate any situation.

**(2) Open book final examination - 50% of final grade**

- the objective of the exam is to put you in the position of a decision-maker in a situation of imminent risk; you must use all the tools at your disposal (readings, lectures and case studies done in class) to assess the risks and to choose the most legally sound course of action in four different scenarios, in 3 hours.

**(3) Presentation and class participation - 10% of final grade**

Each student will be required to give a 10-15 minute presentation on the subject of his/her Term Essay research paper, as well as participate in the discussions following each of the presentations of the other members of the class. The presentation will be in the form of a debate on the risks and counterarguments (pros and cons) of the issue. This will require the student to partner up with a colleague in the class. One student will prepare the risk analysis of his or her topic, while the partner will come up with the counter arguments and the first student will then have to reply to the counterarguments for the remainder of the presentation. Each debate presented will constitute the mark for the one student whose chosen topic is being debated; in other words, every student in the class has to prepare and present a debate on their selected issue. A sign-up sheet for presentation dates will be circulated at the first class.

- **You must sign up for a presentation date by 23 January**

**SCHEDULE****9 Jan INTRODUCTION AND OVERVIEW****16 Jan THE NATURE OF RISK AND UNCERTAINTY****A. Situations of Risk**

1. Sharratt, "Risk Renewal" Canadian Insurance 10 (January 2002)
2. Baer, "Thinking Outside The Courtroom," 2 Just. Can. 1 (2003)
