

COLLOQUIUM SERIES

“Real Democracy and Joint Decisions”

Robert Ware
University of Calgary

I begin with why characterizations of democracy are so bad. I give my view of how it should be defined and characterized. I end with suggestions on how democracy can be improved. Along the way I discuss ideas about collectives and about joint activities, in order to help us understand democracy, and other social phenomena, but also to suggest how we can improve democracy.

Friday, February 6th, 2015

Room: 3228 River Building

Time: 3:00 pm

All are welcome!
