

A Literature Review of Sexual Offence Risk Assessment Tools Developed for Police Practice

By Heather Burke, MA, PhD Candidate
Department of Psychology

Date: 2023-06-23

Sexual Offence Risk Tools

Threat Matrix

- Unconvicted
- Not validated

ARMS

- Convicted persons
- Minimal validation

SHARP

- Convicted persons
- Minimal validation

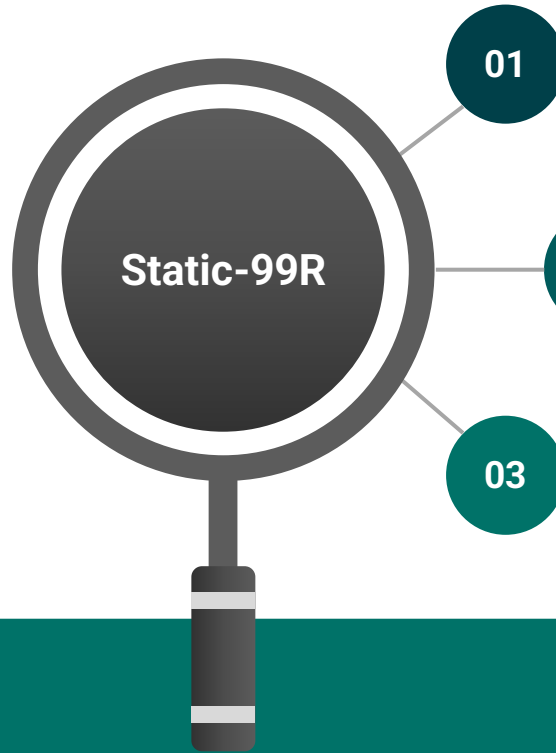

Static-99R

- Charged/ convicted
- Well validated

Research in Progress

Evaluate the field usage
of an established well-
validated risk assessment
tool by police personnel

Interrater Reliability

Consistency across different rater scores on the same case.

Predictive Validity

Ability of a tool to correctly assess the likelihood of recidivism.

Additional Factors

Static and dynamic factors associated with failure in a law enforcement setting.
