

Validating... and then Revising... an Evaluation of Sexual Aggression Scale

Chloe I. Pedneault, Kevin L. Nunes, and
Chantal A. Hermann

ISRA 2018

Preliminary Research on Evaluative Attitudes towards Sexual Aggression

Cross-sectional studies (Hermann et al., 2016; Nunes et al., 2018):

Evaluations  Sexual Aggression

Longitudinal studies (Hermann & Nunes, 2016):

Evaluations  Sexual Aggression

Exploratory Factor Analysis (Nunes et al., 2018):

Evaluations  Cognitive Distortions

Next step:

Examine the **construct validity** of scales designed to assess evaluative attitudes towards sexual aggression

Study 1: Validating the ESAW

Evaluation of Sexual Aggression Against Women (ESAW) Scale

21-item self-report scale based on the **Sexual Experience Survey (Abbey, Parkhill, & Koss, 2005)**

Example item: How **positive** or **negative** is it to **use physical force** on a woman in order to **kiss and/or sexually touch her** when she doesn't want to?

1

2

3

4

5

6

7

very negative

very positive

Method

Participants: 253 male undergraduate students

Groups	Pretest	Manipulation	Posttest
Experimental group 1	ESAW	- Evaluation-change	ESAW
Control group 1	ESAW	Control	ESAW
Experimental group 2		- Evaluation-change	ESAW
Control group 2		Control	ESAW

Negative evaluation-change manipulation

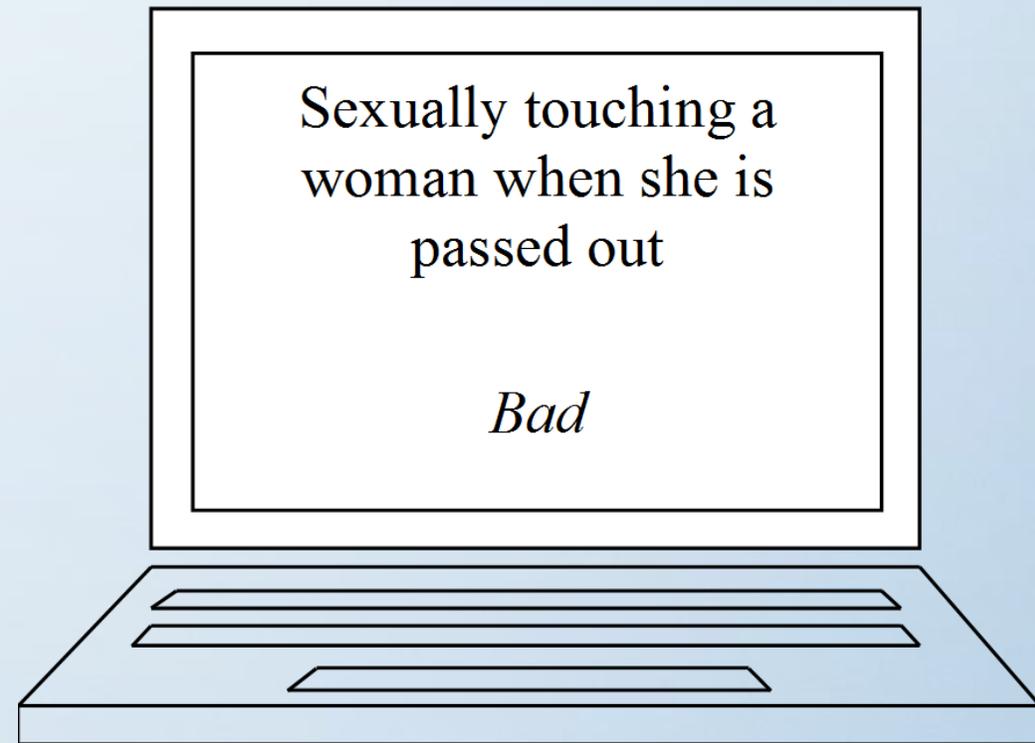

Persuasive message

Consequences for:

- Men who commit sexual assault
- Victims of sexual assault
- The community

What other men think of sexual assault...

Evaluative conditioning

Control condition

Informative message

The Grand Canyon has:

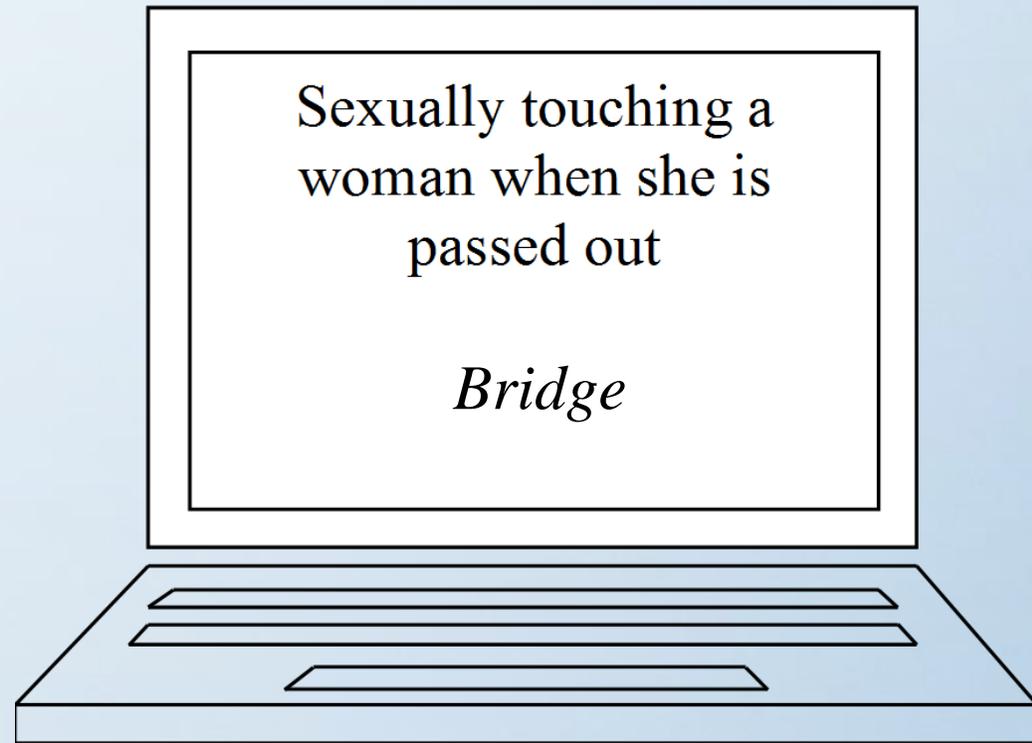

- Different climates
- Different types of rocks
- Activities for everyone

The Grand Canyon is a great place to visit...

Neutral pairs

Sexually touching a woman when she is passed out

Study 2: Revising the ESAW

Developing New Items

- Added 3 contexts:
 - You're with a woman who is wearing a sexy dress and has been flirting with you.
 - You're with a woman who is drunk or high.
 - Your date/girlfriend/wife refuses to...
- New response scales:
 - very bad, a bit bad, a bit good, very good
 - very sad, a bit sad, a bit fun, very fun
 - very negative, a bit negative, a bit positive, very positive

Developing New Items

Example Item:

You're with **a woman who is drunk or high**. She refuses to give you **oral sex**, so you **threaten to physically harm her** if she doesn't give you oral sex.

1

2

3

4

very bad

very good

Method

- 380 heterosexual men from the community completed the 153 new items (Qualtrics sample)
 - Median age = 29 (min = 18; max = 75)
 - United States ($n = 247$); Canada ($n = 133$)

Selecting new ESAW Items

- Discarded redundant items (i.e., polychoric correlations $> .90$)
 - Items with higher variance were retained
- Exploratory Factor Analysis
 - Items with factor loadings $> .40$ were retained

ESAW-Revised

- 12-item scale
- *Mean* = 1.30 (*SD* = 0.55); min = 1, max = 3.58
- Internal consistency: Cronbach's α = .96

ESAW-Revised

Example items:

You having **sex** with a woman who has been **flirting with you and is wearing a sexy dress** when she is too drunk or high to know or stop what is happening.

very bad 1 2 3 4 *very good*

ESAW-Revised

Example items:

You're with a woman who is **drunk or high**. She refuses to give you **oral sex**, so you **block her from getting away from you** (for example, by blocking the doorway) until she gives you oral sex.

1
very negative

Item Response Theory: Test Information Curve

Conclusions and Next Step

- Increased variability of the ESAW
- Still room for improvement
- Still need to examine construct validity

ESAW-Revised Items	Response Scale	Loading
1. You're with a woman who is drunk or high. She refuses to give you oral sex, so you tell her that you'll make something bad happen to her reputation or employment if she doesn't give you oral sex.	Bad vs. Good	.805
2. You having sex with a woman who has been flirting with you and is wearing a sexy dress when she is too drunk or high to know or stop what is happening.	Bad vs. Good	.724
3. You having oral sex with your date/girlfriend/wife when she is too drunk or high to know or stop what is happening.	Bad vs. Good	.687
4. You're with a woman who is drunk or high. She refuses to give you oral sex, so you block her from getting away from you (for example, by blocking the doorway) until she gives you oral sex.	Sad vs. Fun	.863
5. Your date/girlfriend/wife refuses to let you kiss or sexually touch her, so you block her from getting away from you (for example, by blocking the doorway) until she lets you kiss or sexually touch her.	Sad vs. Fun	.803
6. Your date/girlfriend/wife refuses to let you kiss or sexually touch her, so you intimidate her by yelling, swearing, or breaking stuff until she lets you kiss or sexually touch her.	Sad vs. Fun	.817
7. Your date/girlfriend/wife refuses to give you oral sex, so you physically force her (for example, by holding her down) to give you oral sex.	Sad vs. Fun	.860
8. You're with a woman who is wearing a sexy dress and has been flirting with you. She refuses to give you oral sex, so you tell her that you'll make something bad happen to her reputation or employment if she doesn't give you oral sex.	Negative vs. Positive	.856
9. You're with a woman who is wearing a sexy dress and has been flirting with you. She refuses to let you kiss or sexually touch her, so you block her from getting away from you (for example, by blocking the doorway) until she lets you kiss or sexually touch her.	Negative vs. Positive	.868
10. You're with a woman who is drunk or high. She refuses to let you kiss or sexually touch her, so you intimidate her by yelling, swearing, or breaking stuff until she lets you kiss or sexually touch her.	Negative vs. Positive	.869
11. You kissing or sexually touching your date/girlfriend/wife when she is too drunk or high to know or stop what is happening.	Negative vs. Positive	.698
12. Your date/girlfriend/wife refuses to let you kiss or sexually touch her, so you physically force her (for example, by holding her down) to let you kiss or sexually touch her.	Negative vs. Positive	.843
