**Re: Position Title and/or Competition Number (if applicable)**

Dear Mr. or Ms. Name (if no name given, use "Hiring Manager"),

**Opening Paragraph:** State why you are writing. Specify position or type of work for which you are applying. You should mention how you heard of the opening (this is of great interest to the employer). Close with one general statement about how your skills and experience will be of value to this position in order to lead into the next paragraph.

**"About me" Paragraph:** Relate 2-3 of your most relevant skills, interests, knowledge, and abilities to the needs of the employer; point out relevant training, education, and employment; elaborate on your courses, and highlight extra-curricular and volunteer experience. This paragraph should be tailored to any specifications that an employer may have listed in a job posting or description—show them how you have exactly what they are looking for!

**"About them" Paragraph:** Start this paragraph with a targeted statement or fact on what this employer does as a lead in to what you can contribute as a potential employee. Explain why you are interested in working for this employer specifically—what is it about their company or organization that you admire and want to contribute to? Try to convince the employer of your interest in what they do, and therefore your personal investment in their success. Do some research! This paragraph is how *you* can help *them* as opposed to what the employer can do for you.

**Closing Paragraph:** Thank the employer, and use an appropriate closing to pave the way for an interview.

Best regards/Sincerely,
