

## Accelerated Pathway in Civil/Environmental Engineering

The accelerated pathway is a flexible and individualized plan for graduate study. Students in the final year of Bachelor of Engineering in Civil, Environmental, or Architectural Conservation and Sustainability Engineering with excellent academic record and demonstrated aptitude for graduate studies and research may qualify for this option. At this time, you can consider this option if you plan to pursue your master's degree in [Civil Engineering](#), [Environmental Engineering](#) or [Building Engineering](#).

### Admission requirements:

1. A CGPA of 10.0 or higher
2. Going into their final year of undergraduate study
3. Intending to apply for a Master's Degree in Civil, Environmental or Building Engineering in the following academic year

Upon approval for the accelerated pathway, students will replace a maximum of 1.0 credit of their engineering electives with 5000 level CIVE or ENVE courses (depending on the graduate program you intend to apply for). Students will receive advanced standing for the approved 5000 level courses in which they receive a grade of A- or higher. Please note that participation in a graduate pathway does not guarantee admission to the graduate program, but if you are admitted, your advanced standing will reduce your credit load in graduate studies by up to two courses and may shorten your time to completion. If you are interested, please consult with your undergraduate advisor and the graduate office, ideally before you commence your fourth year of studies.

To apply, please complete the form below and forward it via email to the graduate administrator at [CEEGradInfo@cunet.carleton.ca](mailto:CEEGradInfo@cunet.carleton.ca). Copy the Associate Chairs responsible for both the Graduate and Undergraduate programs in your email. You are also encouraged to initiate your graduate application at this time and talk with potential supervisors.

## Accelerated Pathway Application Form

Student Name:

Carleton ID:

Email Address:

CGPA:

\*Note: A minimum overall CGPA of 10.0 is required

Potential Supervisor for student applying to MASc:

Please provide a brief statement describing your motivation for graduate study:

Please provide the names of two professors for academic references:

1.

2.

I have a third-year standing in the Bachelor of Engineering and understand that admission to the Accelerated Pathway is based on a selection process
