

CHEM 2302

Fall 2022

Instructor:

Professor Jeff Smith
Office: Steacie 225
Phone: (613) 520-2600 ext.2408
E-mail: jeff.smith@carleton.ca
 @profjeffsmith

Lectures:

Tuesdays and Thursdays, 11:35am-12:55pm
In person (and online) in Tory Building 210

**Solutions manual
is also highly
recommended**

Textbook:

Quantitative Chemical Analysis by
Daniel C. Harris, 10th Ed., Freeman, 2020.
Available for purchase at Haven Books (havenbooks.ca)

Course website:

Brightspace will be used. Please visit
<https://brightspace.carleton.ca> for course-related
materials.

Office hours:

By appointment via email (in person or virtual)

CHEM 2302

Fall 2022

Instructor:

Professor Jeff Smith

Office: Steacie 225

Phone: (613) 520-2600 ext.2408

E-mail: jeff.smith@carleton.ca

 @profjeffsmith

Homework Management System:

This year a homework management platform will be bundled with the QCA10e textbook called Achieve. It will allow you to work through problems related to the material we are learning to solidify concepts in your mind and help you understand how to relate the theoretical knowledge you are learning to practical situations. The material on Achieve will resemble the types of questions that you will see on Midterms and the Final Exam.

There will be a component of your final grade attributed to your interactions with the Achieve system.

You can access Achieve through this course in Brightspace.

CHEM 2302

Fall 2022

Instructor:

Professor Jeff Smith

Office: Steacie 225

Phone: (613) 520-2600 ext.2408

E-mail: jeff.smith@carleton.ca

 @profjeffsmith

Homework Management System:

Please note that Achieve is a 3rd party tool that is integrated into Brightspace and has been vetted by Carleton University for privacy and security. It is not directly licensed or supported by the University. However, I have determined that it is the best tool to meet the learning outcomes in this course. If you have questions or need support with this tool, please contact me. If you have accessibility issues using this tool, please let me know and I will work with the Paul Menton Centre to find solutions for you.

Clickers:

Poll Everywhere will be used for class polling every week for interactive and educational purposes. Cell phones, smart phones and WiFi connected laptops may be used to interact with these polls via text messaging and online answering. The use of Poll Everywhere is free, except if your cellular service provider charges for text messages; due to this, and the technological nature of Poll Everywhere, class participation is encouraged, but not mandatory.

Laboratory:

Section A1 – Wednesday 1:35-4:25pm – SC 305

Section A2 – Thursday 8:35-11:25am – SC 305

Section A4 – Wednesday 8:35-11:25am – SC 305

Section A5 – Thursday 1:35-4:25pm – SC 305

WHMIS:

All students registered in this course must successfully complete online training in the **Workplace Hazardous Materials Information System** (WHMIS) before being allowed to enter the laboratory. The training course takes about 2 hours to complete. If you have done the training before, there is no need to repeat it. If you have not completed the training, email the CHEM 2302 Laboratory Coordinator Graham Galway at grahamgalway@cunet.carleton.ca.

Laboratory Coordinator:

Graham Galway – grahamgalway@cunet.carleton.ca

Teaching assistants:

Samiksha Vij - SamikshaSamiksha@cmail.carleton.ca

Risha Minocha-Mckenney - RISHAMINNOCHAMCKENNEY@cmail.carleton.ca

Keri Malanchuk - KeriMalanchuk@cmail.carleton.ca

Krysten Sheedy - KrystenSheedy@cmail.carleton.ca

Christian Rosales - ChristianRosales@cmail.carleton.ca

Laboratory details:

(a) Laboratories are scheduled to begin in the week of September 12th. The first lab will be an introductory session that is **mandatory to attend** to learn about the format of labs in CHEM 2302 as well as be trained on basic lab skills that will pertain to the rest of the labs in this course – please make sure you attend!

(b) The lab timetable is printed on p. 4 in the lab manual; students should prepare for each lab accordingly. The new lab manual will be available electronically (via Brightspace) and careful notes on each lab should be made by each student.

Laboratory details (cont.):

(c) The wearing of safety glasses and lab coat is MANDATORY at all times. They can be purchased from the Science Stores. Contact lenses should NOT be worn in the lab. Prescription glasses with safety lenses are permissible; if the glasses are small, goggles will have to be used. **See the safety rules on page 6 of the lab manual.**

(d) Due to the timing and equipment limitations, it is impossible to coordinate the labs and lectures. The lab manual contains some general information in the Introduction section of each experiment. Students may refer to the textbook for more theory of the technique and method.

(e) Satisfactory completion of the lab is required to pass the course. This includes performing all the experiments as scheduled, recording the output signals in the lab, analysing the data at home, and submitting your results on time in either an analysis report form (pages 16-18 in the lab manual), a short report (page 19 in the lab manual) or a formal report (pages 20-21 of lab manual).

Late deductions: **10% per business day.**

Assignments: Questions and problems will be assigned through the Achieve Homework Platform to help solidify your understanding of the class material.

Interaction with Achieve will be graded.

Grading:

The final grade for Chemistry 2302 will be based on the following:

Laboratory component:

1) Formal reports (2 @ 7%)	14%
2) Short reports (1 @ 2.1%)	2.1%
3) Advanced Analysis reports (4 @ 1.75%)	7.0%
4) Lab assignment	3.5%
5) <u>Prelab Quizzes & Virtual Lab Quizzes</u>	<u>8.4%</u>
Laboratory subtotal:	35%
Achieve:	5.0%
Midterm #1:	12.5%
Midterm #2:	12.5%
<u>Final Exam:</u>	<u>35.0%</u>
Total:	100%

(Bell curving will not be used on laboratory, midterm, exam or final marks)

Fine print:

Academic Accommodation for Students with Disabilities:

Carleton University is strongly committed to providing access and accommodation for all individuals with identified and duly assessed disabilities. The University has a Senate-approved policy on Academic Accommodation that forms part of its Human Rights Policy. This policy should be consulted for further information and is available at the front of this Calendar and online at: www.carleton.ca/equity. The policy promotes efforts to accommodate students with disabilities so that they will have the opportunity to meet learning objectives and be fairly evaluated in their performance. In no case, however, does academic accommodation negotiate away, lower, or remove the academic standards and learning objectives of any course or program, rule, regulation, or policy at the University.

The Paul Menton Centre for Students with Disabilities (www.carleton.ca/pmc/) is the designated unit at the University for assisting the Carleton community in integrating persons with disabilities into all aspects of Carleton's academic and community life. The Paul Menton Centre provides assessment of academic accommodation, advises students on strategies to open a dialogue with instructors and acts as consultant, facilitator, coordinator and advocate in this area for all members of the University community.

The Paul Menton Centre provides individualized support services, based on appropriate and up to date documentation, to persons who are deaf or hard of hearing, with learning disabilities, attention deficit disorder (ADD), visual impairments, head injuries, physical disabilities including mobility impairments, or who have psychiatric, other medical or non-visible disabilities. Students are responsible for applying for special services by making an appointment with the appropriate coordinator at the Paul Menton Centre. All requests will be considered on the basis of individual need. Students are advised to come to the Centre early in the term to discuss service requests.

Examination accommodations for all tests and examinations (in-class, CUTV, or formally scheduled) must be arranged by specific deadline dates. Please consult the Paul Menton Centre for a list of deadlines for all examinations. Accommodation requests not made prior to the specified deadlines will not be fulfilled. Students with disabilities requiring academic accommodations in this course must register with the Paul Menton Centre for Students with Disabilities for a formal evaluation of disability-related needs. Registered PMC students are required to contact the PMC, 613-520-6608, every term to ensure that I receive your Letter of Accommodation, no later than two weeks before the first assignment is due or the first in-class test/midterm requiring accommodations. If you only require accommodations for your formally scheduled exam(s) in this course, please submit your request for accommodations to PMC by the deadlines published on the PMC website: <http://www2.carleton.ca/pmc/new-and-current-students/dates-and-deadlines/>

Academic Accommodation for Students with Religious Obligations:

Carleton University accommodates students who, due to religious obligation, must miss an examination, test, assignment deadline, laboratory, or other compulsory event. The University has a Senate-approved policy on religious accommodation that forms part of its Human Rights Policy, available at: www.carleton.ca/equity. Students requesting academic accommodation on the basis of religious observance should make a formal, written request to their instructors for alternate dates and/or means of satisfying academic requirements. Such requests should be made during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist, but no later than two weeks before the compulsory academic event. Accommodation is to be worked out directly and on an individual basis between the student and the instructor(s) involved. Instructors will make accommodations in a way that avoids academic disadvantage to the student. Students or instructors who have questions or want to confirm accommodation eligibility of a religious event or practice may refer to the Equity Services website for a list of holy days and Carleton's Academic Accommodation policies, or may contact an Equity Services Advisor in the Equity Services Department for assistance. Students unable to reach a satisfactory arrangement with their instructor(s) should contact the Director of Equity Services. Instructors who have questions or wish to verify the nature of the religious event or practice involved should also contact this officer. For more details visit the Equity Services website http://www.carleton.ca/equity/accommodation/student_guide.htm

Fine print (cont):

Academic Accommodation for Pregnant Students:

Pregnant students requiring academic accommodations are encouraged to contact an Equity Advisor in Equity Services to complete a letter of accommodation. The student must then make an appointment to discuss her needs with the instructor at least two weeks prior to the first academic event in which it is anticipated the accommodation will be required. For more details visit the Equity Services website

http://www.carleton.ca/equity/accommodation/student_guide.htm

Student Conduct:

The University has adopted a policy to deal with allegations of academic misconduct. This policy is expressed in the document Carleton University Academic Integrity Policy, effective July 1, 2006. The policy describes in detail its scope of application, principles, definitions, rights and responsibilities, academic integrity standards, procedures, sanctions, transcript notations, appeal process, and records implications.

The complete policy is available at: www.carleton.ca/studentssupport or www.carleton.ca/studentaffairs

Plagiarism:

Plagiarism is presenting, whether intentional or not, the ideas, expression of ideas or work of others as one's own. Plagiarism includes reproducing or paraphrasing portions of someone else's published or unpublished material, regardless of the source, and presenting these as one's own without proper citation or reference to the original source. Examples of sources from which the ideas, expressions of ideas or works of others may be drawn from include but are not limited to: books, articles, papers, literary compositions and phrases, performance compositions, chemical compounds, art works, laboratory reports, research results, calculations and the results of calculations, diagrams, constructions, computer reports, computer code/software, and material on the Internet.

Examples of plagiarism include, but are not limited to:

- submitting a take-home examination, essay, laboratory report or other assignment written, in whole or in part, by someone else;
- using ideas or direct, verbatim quotations, paraphrased material, algorithms, formulae, scientific or mathematical concepts, or ideas without appropriate acknowledgment in any academic assignment;
- using another's data or research findings;
- submitting a computer program developed in whole or in part by someone else, with or without modifications, as one's own;
- failing to acknowledge sources through the use of proper citations when using another's works and/or failing to use quotation marks.

For more information, see: http://www.carleton.ca/studentaffairs/academic_integrity/index.html

You may need special arrangements to meet your academic obligations during the term. For an accommodation request the processes are as follows:

Pregnancy obligation: write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details visit the Equity Services website: <http://www2.carleton.ca/equity/>

Religious obligation: write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details visit the Equity Services website: <http://www2.carleton.ca/equity/>

Academic Accommodations for Students with Disabilities: The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the PMC website for the deadline to request accommodations for the formally-scheduled exam (if applicable) at <http://www2.carleton.ca/pmc/new-and-current-students/dates-and-deadlines/>

You can visit the Equity Services website to view the policies and to obtain more detailed information on academic accommodation at <http://www2.carleton.ca/equity/>

CHEM 2302 in the pseudo post-COVID-19 era...

(this slide is important!)

Here is how the lecture component of CHEM 2302 is going to work:

- At the start of this term, we have the green light from the CU administration to hold in-person lectures.
 - CHEM 2302 will be a hyflex course.
 - This means that the lectures will be held in TB 210 and you are all invited to be in the room with me.
 - It also means however that the lectures will be broadcasted at the scheduled class time and you can watch it online.
 - It does not mean that the lectures will be recorded and posted, so please plan on showing up (in person or online) to class at the posted class times.
- We do not know how to anticipate future health restrictions!
 - If COVID rates get worse, the university may restrict campus access, this is why we are doing this course as a hyflex course (we will simply pivot to be online).
 - Fingers crossed COVID rates continue to decline and we can have a “normal” fall term together!
 - I will communicate any and all changes to our class plan as soon as I find out.

We are living in unprecedented times. I promise to do my best to deliver the best course that I can. I anticipate there will be some bumps along the way, but by working together we can ensure this course is a valuable and enjoyable asset to your educational journeys!

CHEM 2302 in the pseudo post-COVID-19 era...

(this slide is important!)

Here is how the midterm and final exam component of CHEM 2302 is going to work:

- There will be 2 midterm exams, one on Oct 20th, 2022 and one on Nov 17th, 2022
 - *These midterms will be designed to take 60 minutes to complete but you will have the whole class time (90 minutes) to finish*
 - *The midterms will be online, administered via Brightspace*
 - *The midterms will be synchronous events. Every student will have to log in and complete each midterm at the time it is scheduled*
 - *Make up midterms will not be offered, if a midterm is missed, the weight of the other midterm and final exam will be adjusted to compensate for the removal of the midterm. If both midterms are missed, your final exam will be worth 65% (not recommended!!)*
- There will be a 3 hour final exam that will take place in December 2022
 - *The exam will be designed to take 120 minutes to complete but you will have 180 minutes to finish*
 - *The exam will be online, administered via Brightspace*
 - *The final exam will be a synchronous event. Every student will have to log in and complete the final exam at the time it is scheduled*

We are living in unprecedented times. I promise to do my best to deliver the best course that I can. I anticipate there will be some bumps along the way, but by working together we can ensure this course is a valuable and enjoyable asset to your educational journeys!

Tentative Lecture Schedule**

<u>#</u>	<u>Lecture</u>	<u>Topics</u>	<u>Chapters</u> (N = notes)
1	Sept 8 th , 2022	<ul style="list-style-type: none">• Presentation / discussion of syllabus• Tips for success• Introduction to the analytical process• Sample preparation, liquid and solid-phase extraction	N/A N/A Ch. 0 Ch. 28-2, 28-3
2	Sept 13 th , 2022	<ul style="list-style-type: none">• Brief tutorial on measurements• Brief tutorial on analytical chemistry laboratory tools• Brief tutorial on experimental error• Brief tutorial on statistics• Error calculations	Ch. 1 Ch. 2 Ch. 3 Ch. 4-1, 4-3 Ch. 4-8
3	Sept 15 th , 2022	<ul style="list-style-type: none">• Quality assurance and calibration methods	Ch. 5
4	Sept 20 th , 2022	<ul style="list-style-type: none">• Introduction to gas chromatography	Ch. 24
5	Sept 22 nd , 2022	<ul style="list-style-type: none">• Introduction to liquid chromatography	Ch. 23-2
6	Sept 27 th , 2022	<ul style="list-style-type: none">• Introduction to atomic spectroscopy	Ch. 21

** – Lecture and test / Midterm schedule is subject to change at the discretion of Professor Smith

Tentative Lecture Schedule**

#	<u>Lecture</u>	<u>Topics</u>	<u>Chapters</u> (N = notes)
7	Sept 29 th , 2022	<ul style="list-style-type: none"> • Chemical equilibrium constant and thermodynamics • Solubility product 	Ch. 6-1, 6-2 Ch. 6-3
8	Oct 4 th , 2022	<ul style="list-style-type: none"> • Acids and bases and pH 	Ch. 6-5, 6-6, 6-7
9	Oct 6 th , 2022	<ul style="list-style-type: none"> • Titrations 	Ch. 7
10	Oct 11 th , 2022	<ul style="list-style-type: none"> • Ionic strength, activity coefficients and true pH 	Ch. 8-1, 8-2, 8-3
11	Oct 13 th , 2022	<ul style="list-style-type: none"> • Fundamentals of electrochemistry • Galvanic cells • Standard potentials 	Ch. 14-1 Ch. 14-2 Ch. 14-3
	Oct 18 th , 2022	<ul style="list-style-type: none"> • <i>Buffer time to review material for Midterm #1</i> 	N/A
	<u>Oct 20th, 2022</u> <u>Synchronous</u> <u>online exam</u>	<ul style="list-style-type: none"> • Midterm #1 on material covered until Oct 15th <i>(Test will be designed to take 60 minutes to complete; however, 90 minutes will be allocated)</i> 	Ch. 0, 28-2, 28-3, 5, 6, 7, 8, 21, 23-2, 24, <u>N</u>

** – Lecture and test / Midterm schedule is subject to change at the discretion of Professor Smith

Tentative Lecture Schedule**

#	<u>Lecture</u>	<u>Topics</u>	<u>Chapters</u> (N = notes)
	Oct 24 th – 28 th , 2022	• <i>READING WEEK</i>	<u>N/A</u>
12	Nov 1 st , 2022	• Nernst Equation • E° and the Equilibrium Constant	Ch. 14-4 Ch. 14-5
13	Nov 3 rd , 2022	• Electrodes and potentiometry • Reference electrodes • Indicator electrodes • pH measurement • Ion-selective electrodes	Ch. 15 Ch. 15-1 Ch. 15-2 Ch. 15-5 Ch. 15-4, -6, -7
14	Nov 8 th , 2022	• Redox titrations	Ch. 16
15	Nov 10 th , 2022	• Fundamentals of electrolysis	Ch. 17-1

** – Lecture and test / Midterm schedule is subject to change at the discretion of Professor Smith

Tentative Lecture Schedule**

<u>#</u>	<u>Lecture</u>	<u>Topics</u>	<u>Chapters</u> (N = notes)
	Nov 15 th , 2022	• <i>Buffer time / optional review session for Midterm #2</i>	N/A
	Nov 17 th , 2022 <u>Synchronous</u> <u>online exam</u>	• Midterm #2 on material from Oct 22nd to Nov 10th <i>(Test will be designed to take 60 minutes to complete, however 90 minutes will be allocated)</i>	Ch. 14, 15, 16 and <u>N</u>
16	Nov 22 nd , 2022	• Electrogravimetric analysis • Coulometry • Amperometry	Ch. 17-2 Ch. 17-3 Ch. 17-4
17	Nov 24 th , 2022	• Voltammetry	Ch. 17-5
	Nov 29 th , 2022	• <i>NO CLASS</i>	N/A
18	Dec 1 st , 2022	• Buffers • Diprotic Buffers • Isoelectric and isoionic pH	Ch. 9-5 Ch. 10-2 Ch. 10-6

** – Lecture and test / Midterm schedule is subject to change at the discretion of Professor Smith

Tentative Lecture Schedule**

<u>#</u>	<u>Lecture</u>	<u>Topics</u>	<u>Chapters</u> (N = notes)
19	Dec 6 th , 2022	• EDTA Titrations	Ch. 12
	Dec 8 th , 2022	• <i>Buffer time / optional review session for Final Exam</i>	N/A
	<u>December</u> <u>2022</u> <u>Time: TBD</u> <u>Synchronous</u> <u>online exam</u>	• <u>FINAL EXAM</u> • The exam will cover all of the material covered in this course and will be 3 hours in duration	Ch. 0, 28-2, 28-3, 23-2, 21, 24, 5, 6, 7, 8, 9- 5, 10-2, 10-6, 12, 14, 15, 16, 17 and <u>N</u>

** – Lecture and test / Midterm schedule is subject to change at the discretion of Professor Smith
