

COURSE NAME AND CODE

Course	CGSC5901A
Course Type	Synchronous
Instructor	Rebecca Merkley
Term	Fall/Winter
Email Address	Rebecca.merkley@carleton.ca
Office Location	TBD
Office Hours	TBD

COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

In this course, we will explore the ways in which genes and experience interactively contribute to brain and cognitive development and shape who we are. Current controversies in developmental science, such as the impact of screen time on development, will be discussed. Topics include adolescent brain development, the malleability of intelligence over development, and infantile amnesia.

EVALUATION

TBD

TEXT

There will be no textbook - readings will be peer reviewed journal articles available via cuLearn.
