

Academic unit:	Institute of Cognitive Science
Category of appointment:	Preliminary (Tenure-Track)
Field of Specialization:	Cognitive Science: Brain and Mind
Rank/Position title:	Mind Assistant Professor
Start date:	July 1, 2017
Closing date for Applications:	Extended to: December 8, 2016

About the position:

The Institute of Cognitive Science invites applications from qualified candidates for a tenure track appointment in Cognitive Science: Brain and Mind at the rank of Assistant Professor beginning July 1, 2017.

The candidate will be expected to have expertise in the theories and methods that link human cognition, broadly construed, to brain activity. The candidate will be expected to teach courses at the undergraduate and graduate levels in this area, to collaborate on interdisciplinary projects with other faculty members in the Institute, and to supervise graduate and undergraduate research projects in this area.

The Institute of Cognitive Science (www.carleton.ca/ics) offers programs at the Bachelors, Masters, and Ph.D. levels in Cognitive Science to approximately 400 undergraduate and 40 graduate students. Carleton is one of the few institutions in the world to offer B.Cog.Sc. and M.Cog.Sc. degrees. The Institute is a fully-independent academic unit, with dedicated faculty members. It is also supported through cross-appointments from Psychology, Linguistics, and Philosophy, and supervisory contributions from several other units, including Computer Science.

Qualifications:

The position requires a Ph.D. in Cognitive Science or a related discipline, with evidence of high-quality research on the relations between cognition and brain activity. The position requires evidence of excellent teaching potential in cognitive science and/or a related discipline. The position requires an excellent track record of high quality research, supported by peer-reviewed publications, showing the potential for funded, independent research, strong methodological and analytical skills, and expertise in several brain scanning methodologies, ideally with a focus on EEG/ERP and other minimally invasive methods. The potential to collaborate with other faculty members in the Institute is an asset. Interest in developing outstanding teaching in an interdisciplinary context is highly desirable. The candidate's research will be fundable by either NSERC or CIHR.

Application instructions:

Applicants should include a curriculum vitae and supporting documents, including a letter of application, a research statement, teaching dossier, and three to five representative publications. These materials should be sent electronically as a single PDF file to John Tracey, Institute Administrator, john.tracey@carleton.ca. Three referees should send letters in support of the applicant to the same address. Applications should be received by December 8, 2016. Please indicate in your application if you are a Canadian citizen or permanent resident of Canada.

Located in Ottawa, Ontario, Carleton University is a dynamic and innovative research and teaching institution committed to developing solutions to real world problems by pushing the boundaries of knowledge and understanding. Its internationally recognized faculty, staff, and researchers provide academic opportunities in more than 100 programs of study to more than 28,000 full- and part-time

students, from every province and more than 100 countries around the world. Carleton's creative, interdisciplinary, and international approach to research has led to many significant discoveries and creative work in science and technology, business, governance, public policy, and the arts.

Minutes from downtown, Carleton University is located on a beautiful campus, bordered by the Rideau River and the Rideau Canal. With over 12 national museums and the spectacular Gatineau Park close by, there are many excellent recreational opportunities for individuals and families to enjoy. The City of Ottawa, with a population of almost one million, is Canada's capital city and reflects the country's bilingual and multicultural character. Carleton's location in the nation's capital provides many opportunities for research with groups and institutions that reflect the diversity of the country.

Carleton University is strongly committed to fostering diversity within its community as a source of excellence, cultural enrichment, and social strength. We welcome those who would contribute to the further diversification of our University including, but not limited to: women; visible minorities; First Nations, Inuit and Métis peoples; persons with disabilities; and persons of any sexual orientation or gender identity and expressions.

Applicants selected for an interview are asked to contact the Chair of the Search Committee as soon as possible to discuss any accommodation requirements. Arrangements will be made in a timely manner.

All qualified candidates are encouraged to apply; however Canadians and permanent residents will be given priority. All positions are subject to budgetary approval.
