COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

This course is a continued exploration of cognitive science. We may discuss behaviorism, the Cognitive Revolution, and the field's current focus on cognitive neuroscience. We will discuss the strengths and issues associated with various approaches and research areas. This is a seminar, and each class will be primarily discussion-based, focused on a weekly set of readings.

EVALUATION

Final Paper	40%
Leading in-class discussion	30%
General participation	30%
Total	100%

TEXT

Papers to be posted on the course website.
