

Course Outline

COURSE:	CRCJ 3202 A Green Criminology
TERM:	Fall 2020
PREREQUISITES:	CRCJ 1000 & third year standing
CLASS:	Day & Time: Tuesdays 2:30 – 5:30 PM Location: Online CULearn (Blended/Principally Asynchronous)
INSTRUCTOR:	Lori Stinson
CONTACT:	Office: via Zoom Office Hours: by appointment (please contact me at least 2 days before you would like your appointment excluding weekends) Email: lori.stinson@carleton.ca
TEACHING ASSISTANT:	Whitney Pala whitneypala@cmail.carleton.ca

Academic Accommodation

You may need special arrangements to meet your academic obligations during the term. For an accommodation request the processes are as follows:

Pregnancy obligation: write to me with any requests for academic accommodation during the first two weeks of class, or Faculty of Public Affairs 20 Teaching Regulations 2020-21 as soon as possible after the need for accommodation is known to exist. For more details [click here](#).

Religious obligation: write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details [click here](#).

Academic Accommodations for Students with Disabilities: The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the [PMC website](#) for the deadline to request accommodations for the formally-scheduled exam (if applicable).

Survivors of Sexual Violence

As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and where survivors are supported through academic accommodations as per Carleton's Sexual Violence Policy. For more information about the services available at the university and to obtain information about sexual violence and/or support, visit: <https://carleton.ca/equity/sexual-assault-support-services>

Accommodation for Student Activities

Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation must be provided to students who compete or perform at the national or international level. Write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist <https://carleton.ca/senate/wp-content/uploads/Accommodation-for-Student-Activities-1.pdf>

COURSE DESCRIPTION

Philosophical & practical origins of green criminology as a specialization; current understandings and theoretical perspectives on environmental crime, harm, criminality, victimization & justice; history & context of environmental harm; objectives & consequences of diverse criminal & regulatory strategies; emerging trends in study & practice.

COURSE OBJECTIVES

Green criminology is the study of crimes and harms affecting the natural environment, the planet, and the associated impacts on human and non-human life. It covers the range of harms from those of omission, to the individual, to corporate and state violence, to genocide and ecocide. The objects of study include violations of current law, but also routinized, socially acceptable, personal, institutional and structural acts made invisible and routinized as natural or inevitable.

The general purpose of the course is to introduce students to the basic concepts, theoretical orientations, methodologies, and areas of research and practice in Green Criminology in Canada and transnationally. The specific objectives of the course, not necessarily in order of importance or occurrence, are as follows:

1. Describe the various philosophical, legal and practical orientations to green criminology and environmental harm and justice within the broader notions of environmental and social justice.
2. Outline the historical, theoretical, legal and activist perspectives on environmental justice and the relatively recent emergence of green criminology as a field of study, research, activism and work, including the growing opportunities and risks involved in these activities.
3. Introduce green criminology's unique and significantly multi-disciplinary approach including social, historical and physical science research, scholarship and action on environmental issues.
4. Evaluate various objectives and strategies for policy, prevention, regulation (including criminalization), enforcement, activism and resistance in environmental protection.
5. Examine questions of environmental harm and justice in Canadian and transnational contexts.

LEARNING STRATEGY & STRUCTURE

The class will be completely online and principally asynchronous (students will be able to watch and hear lectures and audio-visual materials and confirm their understanding of the materials within a modular frame, rather than altogether in the scheduled time slot). All course content is organized into modules. Each module contains a series of associated **lectures** (Kaltura), a detailed PowerPoint deck, **required readings** and a required readings **knowledge check** (true/false questions). In addition, there are **two (2) reading reflections**, which offer you a chance to highlight, interrogate and reflect upon the material that you are learning starting from the readings where the reflection is first presented. There is a **mid-term knowledge check** (short or long answer), and a **take-home final** (essay).

Some modules will also include guest speakers (via Kaltura or zoom) or documentaries. At regular intervals new modules will open as we progress through the content, and previous modules submission provisions will close. Remember it is your responsibility to keep track of course deadlines.

The first module offers easy starts to building a grade base by introducing yourself and your background in green criminology, reviewing academic ethics, and getting used to the knowledge check format with a true/false quiz on the course outline with a focus on course requirements and format.

Students are strongly encouraged to be active, thoughtful, and respectful participants and contributors to the knowledge generated and shared in the virtual classroom. This will be supplemented with live zoom **discussion sections** that will be recorded in audio and posted for students unable to participate,

REQUIRED TEXTS

All required readings, and any recommended supplementary academic articles will be available online via the Ares reserve system, all audio-visual materials (including lectures and documentaries) will be available within the module to which they pertain.

SUPPLEMENTARY RESOURCES

Some supplementary articles and online content, with a focus on news, science and policy, may also be posted through links in the modules. Please note you will be able to incorporate these into your written work in addition to the required readings if you wish; however, they will not count as equivalent to the required readings where assignments or exams stipulate a minimum number of required readings that must be used.

EVALUATION

(all components must be completed for a passing grade)

Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by the instructor may be subject to revision. No grades are final until they have been approved by the Dean, so final exam marks and grades cannot be released beforehand.

COMPONENTS OF FINAL MARK

EVALUATION FORMAT	WEIGHT	DUE DATES
Academic Integrity & Syllabus Acknowledgement	1 %	Sept 21
Module 1 Knowledge check: course requirements	2 %	Sept 21
Check-in "starting point" Survey	1%	Sept 21
Introduce yourself	1 %	Sept 21
Knowledge Check Quizzes (pre-midterm)	(4 x 2 %) 8 %	Sept 28; Oct 5, 16, 23
Knowledge Check Quizzes (post-midterm)	(4 x 2 %) 8 %	Nov 18, 27; Dec 4, 11
Readings Reflection	(2 x 10 %) 20 %	Oct 13, Dec 1
Midterm (short or long answer) Knowledge Check	25 %	November 3
Take home final Exam	35 %	December 23
Check-out "what now" Survey	1 %	December 23

Detailed descriptions and rubrics are included in the relevant module of your CULearn course page.

GRADING

Grades will generally be distributed according to the following template:					
A+	90-100%	A	85-89%	A-	80-84%
B+	77-79%	B	73-76%	B-	70-72%
C+	67-69%	C	63-66%	C-	60-62%
D+	56-59%	D	53-56%	D-	50-52%
F	Below 50				

Written work will be graded for insight, analytical skill, inclusion and organization of relevant course materials, appropriate academic form, references and appropriate citation, clarity of expression (including logical flow, readability, grammar, correct word usage and spelling), accuracy and relevance of content. Poorly written work will be penalized, so please go through the materials in the Introductory module on CULearn for detailed information on organizing, formatting, writing, correctly citing and referencing your work and for specifics on evaluation and grading.

Late submissions and Missed Exams are not encouraged, although exceptions are made for illness or other challenging situations. Please contact your Lori as quickly as possible Should you require accommodation on deadlines. Each day of late submission without an arranged extension results in a penalty of 5% per day cumulative. University regulations require absences and late submissions on final exams be supported by documentation. Information and forms should you require a formal exam deferral are available online: <https://carleton.ca/registrar/special-requests/deferral/>

Always keep copies of written work submitted. Retain for yourself more than one copy in alternate formats (hard copy, external hard drive, or USB in addition to your original on your primary computer) of all essays, term papers, contributions to forums, take-home exams and any other written work submitted in your courses.

STATEMENT ON PLAGIARISM

The University Senate defines plagiarism as *“presenting, whether intentionally or not, the ideas, expression of ideas or work of others as one’s own.”* This can include:

- reproducing or paraphrasing portions of someone else’s published or unpublished material, regardless of the source, and presenting these as one’s own without proper citation or reference to the original source;
- submitting a take-home examination, essay, laboratory report or other assignment written, in whole or in part, by someone else;
- using ideas or direct, verbatim quotations, or paraphrased material, concepts, or ideas without appropriate acknowledgment in any academic assignment;
- using another’s data or research findings;
- failing to acknowledge sources through the use of improper citations when using another’s works and/or failing to use quotation marks;
- handing in "substantially the same piece of work for academic credit more than once without prior written permission of the course instructor in which the submission occurs."

Plagiarism is a serious offence that cannot be resolved directly by the course’s instructor. The Associate Dean of the Faculty conducts a rigorous investigation, including an interview with the student, when an instructor suspects a piece of work has been plagiarized. Penalties are not trivial. They can include a final grade of "F" for the course.

INTELLECTUAL PROPERTY

All teaching and learning activities, including lectures, discussions, presentations, etc., by both instructors and students, are copy protected and remain the intellectual property of their respective author(s). All course materials, including PowerPoint presentations, outlines, and other materials, are also protected by copyright and remain the intellectual property of their respective author(s).

Students registered in the course may take notes and make copies of course materials for their own educational use only. Students are not permitted to reproduce or distribute any lecture notes, recordings or any other course materials publicly for commercial or non-commercial purposes without express written consent from the copyright holder(s).

Email to Professor or TA: Where needed emails should receive a response within two business days, Please keep those time constraints in mind when emailing for virtual appointments. Emails should not include questions already addressed on the course outline or CULearn, requests for ‘extra credit assignments’ to improve your grade, or whether required readings are required. They are.

Virtual Campus: For any technical difficulties, questions or problems with any of Carleton’s virtual learning and management platforms contact the system support folks immediately responsible for the respective systems (via help links on respective pages or general main page help listings).

CLASS SCHEDULE

Please complete your required readings prior to the class for which they are listed, and assignments by the dates they are indicated as due on the Components of Final Mark Schedule.
