Information for Faculty- Incentive Program

The purpose of the Centre for Student Academic Support (CSAS) Incentive Program is to encourage students to participate in workshops that will help them to become better academic learners. Instructors are invited to participate in the Incentive Program by allowing students to earn a small portion of their grade in exchange for attending CSAS Learning Support Workshops.

By allocating a small percentage of a class grade to participation in CSAS Learning Support Workshops, you can play a part in helping students learn useful tips and strategies to develop and improve their study habits. This will help them work towards academic success in your class and throughout their time spent at university.

Students can pick and choose from a variety of topics to attend based on their unique needs. Grade allocation and the number of workshops required for each course is left to the discretion of the instructor.

In order to participate in the Incentive Program, Professors simply need to register their course and incorporate program information into their syllabus (CSAS will provide sample syllabus information upon registration). It is then the students' responsibility to attend workshops and sharpen their skills. CSAS will track the workshop attendance of each student and provide a report to the course instructor at the end of the semester.

In person workshop topics will be repeated throughout each of the terms to ensure variety and accessibility. CSAS also offers ten online learning workshops, to ensure that all students are able to participate, anytime and anywhere.

To register your course in the Incentive Program, please fill out the Faculty Request form on our website. For more information, please contact Lakin.Dagg@carleton.ca.
