Information for Faculty – Incentive Program

The Incentive Program helps students develop academic skills and studying strategies though participation in Skill Development Workshops.

Information for Instructors:

The Centre for Student Academic Support (CSAS) encourages instructors to incorporate skill development incentives into their course design. Instructors can allocate a percentage of their students’ final grade to their participation in a specified number of Skill Development Workshops. Grade allocation and the number of workshops required for each course is left to the discretion of the instructor.

In order to participate in the Incentive Program, Professors simply need to register their course and incorporate program information into your syllabus. It is the students’ responsibility to attend workshops. CSAS will track the workshop attendance of each of your students and provide a report to you at the end of the semester.

Workshop topics will be repeated throughout each of the terms to ensure variety and accessibility. All on-campus workshops will take place at the CSAS drop-in centre in room 402 ML on the 4th floor, MacOdrum Library.

Online workshops will be accessible on cuLearn by completing an enrollment form.

The Workshop Clusters are:

Starting University

- Time Management
- Essay Writing
- Academic Integrity
- Campus Connections
- Budgeting 101
- Critical Thinking
- Proofreading
