

Sustainable Energy Seminar Series

Municipalities and Sustainable Energy

Since 2000, the Federation of Canadian Municipalities (FCM) has administered the Green Municipal Fund (GMF), supporting a variety of municipal sustainability initiatives. These initiatives include those which improve energy efficiency, support green transportation alternatives, and implement recycling systems. In this presentation, Mr. Wren will provide an overview of sustainable energy projects supported by the GMF within municipalities. This will include Property Assessed Clean Energy (PACE) programs, Virtual Net Metering, Smart Solar optimization with battery storage, micro-grids, Electric Vehicles, and net-zero energy buildings.

Thursday, November 19th
5:30-7pm EST

Registration is required.

5:30 – 5:40 PM Login
5:40 - 6:20 PM Presentation
6:20 – 7:00 PM Q & A

REGISTER

Jim Wren has 12 years of experience working in the field of financing municipal projects and programs across Canada. He comes from a diverse educational background, with a BA focused in Financial Economics from Carleton University and a Mechanical Engineering Technology diploma focused in Automotive Manufacturing from Georgian College.
