

Department of Economics
ECON 3803 A - The Economics of Natural Resources
WINTER 2020

Instructor: Dr. Collins Ayoo
Office: Loeb B842
Telephone: 613-520-2600 Ext 3769
E-mail: collinsayoo@cunet.carleton.ca
Class Time: Wednesdays 6:05 - 8:55 pm
Class Location: SA 520
Office Hours: Friday 5:45 - 6:45 pm

A. Introduction

This course is an introduction to the theory and practice of natural resource economics. It deals with the economic analysis of issues concerning natural resource use, management and conservation. Natural resource economics addresses questions such as how to value natural resources, how to optimally manage natural resources over time to maximize their value, how different systems of property rights impact natural resource use and sustainability, and how public policy can be used to achieve optimal management. The course starts with a review of microeconomic theory and the basic principles for natural resource analysis including efficiency, sustainability and policy approaches used to address natural resource use and management. After establishing a level of comfort with the theory and some general analytical tools, we will discuss practical applications to natural resource problems such as forestry, fisheries, water resource allocation, energy and mineral economics.

B. Prerequisites

ECON 1001 or ECON 1000 or FYSM 1003. Students who believe they have taken a similar background course or courses from another university must provide appropriate documentation to the Department of Economics Undergraduate Administrator Amanda Renee Lortie.

C. CuLearn

All relevant course material, assignments, and announcements will be available on cuLearn under ECON 3803A, which can be accessed through Carleton University's Web site (carleton.ca/culearn). Students are responsible for checking cuLearn regularly to ensure that they are up to date with any announcements. For assistance with cuLearn contact the ITS Service Desk (4th Floor, MacOdrum Library, telephone: 613-520-3700).

D. Required Texts and Reading Materials

Field, B.C. 2016. Natural Resource Economics: An Introduction, Third Edition, Waveland Press. Additional relevant reading materials will be posted on cuLearn during the term.

Students may also find the following texts useful:

Berck, P. and G. Helfand.2010.The Economics of the Environment. Prentice Hall. Ch. 16 &17.

Tietenberg, T. and L. Lewis.2012.Environmental and Natural Resource Economics. Pearson. Ninth Edition.

Bergstrom, J. and A. Randall.2010.Resource Economics. Edward Elgar. Third Edition.

E. Course Evaluation

The final grade in the course will be determined as follows:

4 problem Sets	30%
Midterm Exam	30% - February 26, 2020
Final Exam	40% - Scheduled by the University between April 13-25, 2020

Problem Sets: I will assign four problem sets through the semester. All assignments must be submitted at the beginning of class on the day they are due. No late assignments will be accepted.

Midterm Exam: There will be no deferred midterm exam. For students who can document a compelling reason for missing the mid-term exam, the weight assigned to the midterm exam will automatically be shifted to the final exam. Students *must* inform the instructor of such an absence in advance, if possible.

Final Exam: The final exam will be cumulative (i.e., based on the whole course). Failure to write the final exam when the student has achieved satisfactory performance during the semester will result in a grade of 'F' until an appeal to write the deferred final exam in May 2020, if granted by the Registrar's Office. Application to write a deferred final examination must be made at the Registrar's Office. A change of grade will be submitted when the deferred final exam has been written and the marks are available. See Academic Regulation 2.3 for the official meanings of the grades, and note that it stipulates that no course grades are final until approved by the Faculty Dean.

F. Course Sharing Websites

Please note that student or professor materials created for this course (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the author(s). They are intended for personal use and may not be reproduced or redistributed without prior written consent of the author(s).

G. Statement on Plagiarism

Please be aware that plagiarism is a serious offence at Carleton and should be recognized and avoided. For example, simply copying someone's assignment whether in whole or in part can be considered as plagiarism. For further information on how to do so, please see "Pammett on Plagiarism and Paraphrasing" at www.carleton.ca/economics/courses/writing-preliminaries.

H. Course Outline

Building Blocks and Fundamental Concepts

1. Important Issues in Natural Resource Economics
2. Natural Resources and the Economy
3. Willingness to Pay/Demand
4. Costs/Supply
5. Efficiency and Sustainability
6. Markets and Efficiency

Policy Instruments and Natural Resource Analysis

1. Public Policy for Natural Resources
2. Principles of Analysis

Applied Natural Resource Analysis

1. Mineral Economics
2. Energy Economics
3. Forest Economics
4. Marine Resources
5. Water Resources
6. Economics of Wildlife Management
7. Economics of Biodiversity Preservation

I. Information on Academic Accommodations

You may need special arrangements to meet your academic obligations during the term. For an accommodation request, the processes are as follows:

Pregnancy obligation or Religious Obligation accommodation

Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, visit the Equity Services website: Student Guide to Academic Accommodation

Academic Accommodations for Students with Disabilities

If you have a documented disability requiring academic accommodations in this course, please contact the Paul Menton Centre for Students with Disabilities (PMC) at 613-520-6608 or pmc@carleton.ca for a formal evaluation or contact your PMC coordinator to send your instructor your *Letter of Accommodation* at the beginning of the term. You must also contact the PMC no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with your instructor as soon as possible to ensure accommodation arrangements are made. carleton.ca/pmc

Survivors of Sexual Violence

As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and survivors are supported through academic accommodations as per Carleton's Sexual Violence Policy. For more information about the services available at the university and to obtain information about sexual violence and/or support, visit: carleton.ca/sexual-violence-support

Accommodation for Student Activities

Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation must be provided to students who compete or perform at the national or international level. Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist.
