Prerequisite: ECON 1001 or ECON 1000 or FYSM 1003. Students who believe they have taken a similar background course or courses from another university must provide appropriate documentation to the Acting Department of Economics Undergraduate Administrator, Renée Lortie.

I. DESCRIPTION

The goal of this course is to study and understand the recent experiences of a number of countries that engaged in the process of transition from a “socialist”, centrally planned economy to a “capitalist”, market economy. Thirty years ago the Berlin Wall fell, symbolizing the end of the greatest political and economic experiment of the 20th century. Countries of Central and Eastern Europe, the former Soviet republics, and Central Asia were now free to return to the global economic community - what have we learned from their experience?

To understand the subject, we need to learn the context. We start with the region’s historical and geographical background; then review the fundamentals of socialism and central planned economy, and the legacy of the Soviet economic system which these countries inherited. This allows to proceed to the second part of the course: the initial debates about transition, its course and its eventual economic and social outcomes. Here we study the key determinants of transition choices and outcomes. Finally, in the third part of the course we discuss in detail the deviations from the general theory and specific country experiences. Many of those relate to the domestic vested interests and obstacles that obstructed the path towards further reform. While the case of China is outside the scope of this course, we will have an opportunity to apply what we learned to its situation. The current existential conflict between Russia and the West will also be discussed and explained every step of the way.

Key objectives of this course include: learning about the region, learning about socialism, understanding transition process and outcomes, and a better understanding of a functioning market economy.

III. EDUCATIONAL PROCESS

Modality: Classes will take place in person on campus. No online participation will take place for this course. Key slides for these lectures will be accessible from the Brightspace course website, but will only have general topics discussed without detail. Lecture attendance will be essential to do well.

To succeed in the course you should follow the steps below in order:

- review the course outline before every class to situate the subject of the upcoming lecture within the course;
- do the required readings before every class (and further readings if interested in the topic);
- attend the lecture, which will help you to: 1) understand the context, 2) arrange the material from the readings in the right order, 3) put emphasis on what's important and what is secondary, and 4) determine what knowledge will be required in order to do well on quizzes and exams.

Quizzes: The last half-hour of each class on Weeks 4, 6, 9 and 12 will feature an in-class quiz. The quizzes will focus on the required course readings from the two previous weeks. They will test not just your memory, but also your ability to make inferences from the material. Quiz attendance is mandatory. You are allowed to miss one of the quizzes with prior warning and an acceptable reason, in which case its weight will be transferred to your final exam. Any additional missed quizzes will result in a grade of 0 for that quiz.

Country Study: In Week 3, a random draw will be held to assign one transition country to every student. You will be responsible for writing a short study on your assigned country. Its length should be 1,500 words, or 6 double-spaced pages, plus accompanying charts/tables/references in an Annex). Additional details will be provided by the third week of class. The paper will be due in the week of the last class and should be submitted online.

The perspective of your Country Study will follow this scenario:

- you are a citizen of a transition country - born, raised and working there;
- however, you are also a graduate from a Canadian university with a recent degree in economics;
- your country underwent a recent election, and the new government wants your urgent and honest advice on the transition progress so far, and what can be done to improve its speed;
- your advice should apply both domestically and internationally, because a copy of your study will also be forwarded to the World Bank and IMF. Think accordingly.

Your Country Study should strictly follow the outline below:

1. General description of the economic situation at the beginning of transition, and key facts and constraints (political, military, international, industrial etc.) that should be borne in mind.
2. Discuss the degree of progress towards a market economy achieved by your country up to now, using quantitative evidence discussed in the course materials (GDP, TPI, HDI, INST, Gini, etc.). Make sure to use available sources: you can't be flatly contradicting EBRD, IMF, World Bank, but you cannot plagiarize them either. Consider their evidence and creatively develop it with additional information.
3. Make conclusions and recommendations for action. Those are 4-5 short bullets at the end that are the key value added of your study (think of your short window of opportunity, the most important reforms that can be made, and a realistic way to implement them). Do not be generic. Use additional readings on the country in question to gain more insight into its path and problems.

Please note the following important rule associated with this course:

- Any student who fails to write the midterm test, or to hand in the paper on time, will automatically receive a zero for that assignment, unless the instructor is notified in advance and a written medical or equivalent explanation is provided. With a valid reason an extension for the paper will be scheduled and the weight of the midterm can be shifted to the final.

IV. READINGS

As a discussion course in political economy, this course emphasizes required readings. They replace the theoretical models, graphical analysis and problems of most standard economics courses, but should be taken just as seriously. Materials on the reading list are required. Readings are available online, on reserve through the university catalogue or in the bookstore. Read the week's materials before tuning in for the class - it will make the class material more useful to you.

ON = on-line, through ARES or the library catalogue.

This outline is tentative and some readings may change as we progress.

Main text (bookstore for both e-version and complimentary physical copy, and on reserve):

V. ACADEMIC ACCOMMODATIONS

The Centre for Student Academic Support (CSAS) is a centralized collection of learning support services designed to help students achieve their goals and improve their learning both inside and outside the classroom. CSAS offers academic assistance with course content, academic writing and skills development. Visit CSAS on the 4th floor of MacOdrum Library or online at: www.carleton.ca/csas

The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send the instructor your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). Requests made within two weeks will be reviewed on a case-by-case basis. After requesting accommodation from PMC, meet with the instructor to ensure accommodation arrangements are made. Please consult the PMC website (www.carleton.ca/pmc) for the deadline to request accommodations for the formally-scheduled exam (if applicable).

Religious Observances: Students requesting accommodation for religious observances should apply in writing to their instructor for alternate dates and/or means of satisfying academic requirements. Such requests should be made during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist, but no later than two weeks before the compulsory academic event.

Accommodation is to be worked out directly and on an individual basis between the student and the instructor(s) involved. Instructors will make accommodations in a way that avoids academic disadvantage to the student. Instructors and students may contact an Equity Services Advisor for assistance (www.carleton.ca/equity).

Pregnancy: Pregnant students requiring academic accommodations are encouraged to contact an Equity Advisor in Equity Services to complete a letter of accommodation. Then, make an appointment to discuss your needs with the instructor at least two weeks prior to the first academic event in which it is anticipated the accommodation will be required.

Plagiarism: The University Senate defines plagiarism as “presenting, whether intentional or not, the ideas, expression of ideas or work of others as one’s own”. This can include: reproducing or paraphrasing portions of someone else’s published or unpublished material, regardless of the source, and presenting these as one’s own without proper citation or reference to the original source; submitting a take-home examination, essay, laboratory report or other assignment written, in whole or in part, by someone else; using ideas or direct, verbatim quotations, or paraphrased material, concepts, or ideas without appropriate acknowledgment in any academic assignment; using another’s data or research findings; failing to acknowledge sources through the use of proper citations when using another’s works and/or failing to use quotation marks; handing in substantially the same piece of work for academic credit more than once without prior written permission of the course instructor in which the submission occurs.

Plagiarism is a serious offence that cannot be resolved directly by the course’s instructor. The Associate Dean of the Faculty conducts a rigorous investigation, including an interview with the student, when an instructor suspects a piece of work has been plagiarized. Penalties are not trivial. They can include a final grade of “F” for the course. For more information, please see the [University Policy on Academic Integrity and Offenses of Conduct](#).

Copyright: Classroom teaching and learning activities, including lectures, discussions, presentations, etc., by both instructors and students, are copyright protected and remain the intellectual property of their respective author(s). All course materials, including PowerPoint presentations, outlines, and other materials, are also protected by copyright and remain the intellectual property of their respective author(s).

Students registered in the course may take notes and make copies of course materials for their own educational use only. Students are not permitted to reproduce or distribute lecture notes and course materials publicly for commercial or non-commercial purposes without express written consent from the copyright holder(s).

Submission, Return and Grading of Term Work:

Written or online assignments must be submitted directly to the instructor(s) according to the instructions in the course outline. Final exams are intended solely for the purpose of evaluation and will not be returned.

Final standing in courses will be shown by alphabetical grades. The system of grades used is standard to Carleton.

90-100:	A+
85-89:	A
80-84:	A-

77-79:	B+
73-76:	B
70-72:	B-
67-69:	C+
63-66:	C
60-62:	C-
57-59:	D+
53-56:	D
50-52:	D-
0-50:	F

Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by an instructor may be subject to revision. No grades are final until they have been approved by the Dean.

Communication: All email communication to students will be from the instructor's e-mail (menelhil@yahoo.com) to the students' official Carleton university e-mail accounts and/or Brightspace. Important course and university information is distributed this way, so it is the student's responsibility to monitor their e-mail accounts and course website. However, do not e-mail the instructor on Carleton, but use the e-mail above for all communications.
