

Research Methods in Economics - ECON 3900A

Carleton University
Department of Economics
Summer-2019

Instructor: Abdallah Zalgout
E-mail: abdallahzalgout@cmail.carleton.ca
Class Hours: M and W 2:35 - 5:25 pm
Class Room: CB 2104
Office Hours: By appointment.

Course Description

This course covers the basics of conducting applied economic research. This includes the selection of topic, literature review and survey, selection of research method and approach, formulation of hypothesis, testing of hypothesis using statistical analysis, and summarizing results. You will organize and complete the research project in stages. This process includes the following steps:

- choice of a topic;
- finding, critically evaluating and describing the relevant economics literature on this topic;
- developing a research proposal;
- finding relevant economic data sources and collecting economic data;
- analyzing these data using appropriate statistical and econometric techniques;
- clearly and meaningfully summarizing, tabulating and explaining the findings;
- writing a final report/paper;
- presenting your results.

During the first week of classes you are expected to choose a topic, form a team and get organized to start your research projects. Since another important objective of the course is to learn some econometric techniques for analyzing data, there will be one or two lectures on econometric topics and STATA software training . During the rest of the course, you and your

team will work on your project and meet with me for consultation. I will be working closely with you at every stage of your research project. However, the paper must be the product of each group's effort. Each student must demonstrate the capacity to do independent work.

Prerequisites

ECON 2030 with a grade of C+ or higher, ECON 2103 with a grade of C+ or higher, ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher. Students who believe they have taken a similar background course or courses from another university must provide appropriate documentation to the Department of Economics Undergraduate Administrator, Amanda Wright. A grade of C+ or higher is required to qualify for ECON 4905. DEF(erred final grade) status at the end of this course precludes (continued) registration in any other course for which the former is a prerequisite.

1 Research Paper

The research paper must be analytical and innovative. The study must first clearly identify the problem to be investigated. The paper must analyze economic models that address this problem in a rigorous way. The paper must have:

- A concise abstract explaining the problem explored and the main conclusions.
- A well-written introduction to explain why your topic is important and interesting and how does it fit in the relevant literature.
- An explanation of the economic theory underlying the chosen topic, the hypotheses that will be made and the analytical/empirical/econometric methodology that will be used.
- An explanation of the data sources and data that you use.
- A clear and well-organized presentation of your results in words as well as relevant tables and graphs (if appropriate) to illustrate these results.
- A conclusion summarizing and evaluating your results and suggesting possible improvements.

The paper must be neat, well organized, written in correct English with no grammatical or spelling errors and no typos. The format of the paper and of the bibliography (references) section must be done according to the provided instructions. Sloppy work will lose points.

Textbook

Required Textbook

- Robert H. Neugeboren, *The Student's Guide to Writing Economics*, First Edition, 2005. (A digital copy of the book is available online through Macodrum Library website).

Course Website

This course will make use of CuLearn. Please ensure that you are set up on CuLearn prior to the course start date. The link to the Culearn Website is: <https://carleton.ca/culearn/>

Grading Policy

The grade will count the assessments using the following proportions:

Writing quiz	10%
Class Participation	20%
Research Proposal	20%
First draft	25%
Final paper	25%

Students who can document a compelling reason for missing the quiz, the assignment, any of the drafts or the presentation will be excused. If that is the case, the weight of the writing quiz will be moved to the empirical assignment if the writing quiz is missed, otherwise an extension will be granted.

Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by an instructor may be subject to revision. No course grades are final until approved by the Faculty Dean. Application to write a deferred final examination must be made at the Registrar's Office.

Plagiarism

Please be aware that plagiarism is serious offence at Carleton and should be recognized and avoided. For further information on how to do so, please see "Pammett on Plagiarism and Paraphrasing by clicking [here](#).

Accomodation Statement

You may need special arrangements to meet your academic obligations during the term. For an accommodation request the processes are as follows:

- **Pregnancy obligation:** write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details visit the Equity Services [website](#).
- **Religious obligation:** write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details visit the Equity Services [website](#).
- **Academic Accommodations for Students with Disabilities:** The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the PMC website for the deadline to request accommodations for the formally-scheduled exam (if applicable) at <http://www2.carleton.ca/pmc/new-and-current-students/dates-and-deadlines/>

You can visit the Equity Services website to view the policies and to obtain more detailed information on academic accommodation by clicking [here](#).
