RESEARCH METHODS IN ECONOMICS

Instructor: Professor F. Demers
Office: Loeb Building B854
Phone: 613-520-2600 ext 3775
E-mail: fanny.demers@carleton.ca
Office Hours: To be announced
TA: Shaﬁullah Qureshi

Lectures: Monday 11:35am-2:25pm.

Prerequisites: ECON 2030 with a grade of C+ or higher, ECON 2103 with a grade of C+ or higher, ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher. A grade of C+ or higher is required to qualify for ECON 4905.

Students who believe they have taken a similar background course or courses from another university must provide appropriate documentation to the Department of Economics Undergraduate Administrator, Renée Lortie.

DEF(ered final grade) status at the end of this course precludes (continued) registration in any other course for which the former is a prerequisite.

PLEASE NOTE:

Our first lecture will take place synchronously on BigBlueButton (BBB) on January 11 at 11:35 a.m. (It will also be recorded). You will find the BBB icon on the course website. Please click on the icon to join the session. (A webcam is not required.)

I will start by providing you with a description of the course and the different steps that need to be completed by the end of the semester. The course will involve group projects. Starting with the second week of classes, I will have 20min-30min meetings with each group through BBB both during lecture time as well by appointment at prearranged times. During those meetings, you and your group members will be able to show your work and ask questions.

This course will make extensive use of CuLearn. It is each student’s responsibility to check this website for posted material that is related to each step of the course. Students must also verify their e-mail messages frequently. If you do not have a CuLearn account, please visit: www.carleton.ca/culearn.
Course Description:

The objective of this course is to initiate students to the process of conducting research in economics using econometric techniques for analyzing data. Students are expected to write a well-structured technical text describing this research. This process will be broken down into basic specific steps which will involve:

a) choosing a topic
b) finding, critically evaluating and describing the relevant literature
c) developing a research proposal
d) finding relevant economic data sources and collecting economic data,
e) analyzing the data using appropriate econometric techniques
f) clearly and meaningfully summarizing and tabulating the findings,
g) learning about writing techniques for developing a final report/paper.
h) preparing a PowerPoint presentation and presenting the research in front of an audience

There will be a preliminary lecture to explain in detail what you need to do to fulfill the course requirements and to give you some background for the research paper. During the first week of classes you are also expected to choose a topic, form a team (of three or four students) and get organized to start your research projects. (The exact timetable for the project will be provided on Cu Learn.)

During the course, you and your team will work on your project and meet with me and the TA (during class-time and office hours) for consultation. In-class presentations will take place during the last two weeks of the semester.

Recommended textbooks:

Research Paper

As mentioned above, the objective of this course is to initiate students to the process of developing and writing a research project. The teams will be guided towards the achievement of this goal with the help of regular meetings with me and the TA. However, the paper must be the product of each student’s personal effort. Each student must demonstrate the capacity to do independent work.

The recommended length is 10-15 pages of text, excluding the cover page, footnotes, tables and references. Papers must be typed double-spaced (Times-Roman 12 pts) and have appropriate margins (1 inch on all sides.)

The research paper and the first draft will be evaluated according to the following criteria.
The research paper must be **analytical and innovative**. The study must first clearly identify the problem to be investigated. The paper must analyze economic models that address this problem in a rigorous way.

The paper must have:

1. A concise abstract (150-200 words) explaining the problem explored and the main conclusions.
2. A well-written introduction to explain why your topic is important and interesting.
3. A literature review: synthesize and critically evaluate some economic theories and empirical studies on your topic of interest.
4. An explanation of the economic theory underlying the chosen topic, the hypotheses that will be made and the analytical/empirical/econometric methodology that will be used.
5. A detailed explanation of the data sources and data that you use.
6. A clear and well-organized presentation of your results in words as well as relevant tables and graphs (if appropriate) to illustrate these results.
7. A comparison of your results with the results obtained in other similar studies in the literature.
8. A conclusion summarizing and evaluating your results and suggesting possible improvements.
9. The paper must be neat, well organized, written in correct English with no grammatical or spelling errors and no typos. The format of the paper and of the bibliography (references) section must be done according to the provided instructions. Sloppy work will lose points. This also applies to the first draft and the proposal.

**Here (in brief) are the stages of the research paper with some tentative dates:**

1. The choice of your team and a general topic or area of research to be approved by me (January 18)
2. Submission of a research proposal (5 pages) on your chosen topic (February 12)
3. Submission of the first draft of your paper (March 8)
4. Revision of the first draft following comments
5. Submission of the final draft of the paper (April 14).

In order to permit a timely submission of the final draft, it will be very important to adhere to this timetable and to the deadlines indicated.

Each step of the timetable and its components (including instructions for the Bibliography) will be posted on CuLearn.

**Course Evaluation:**

- Proposal *(due February 12)*
- First Draft *(due March 8)*
- Final paper *(due April 14)*
Please note that the deadlines may be changed, and students will be advised accordingly in class or via CuLearn.

In view of COVID-19, please let me know in case you have difficulty in meeting deadlines.

Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by an instructor may be subject to revision. No course grades are final until approved by the Faculty Dean.

CuLearn and e-mail:

This course will make use of CuLearn. It is each student’s responsibility to check this website for posted material, as well as the Carleton University e-mail system for correspondence. If you do not have a CuLearn account, please visit: www.carleton.ca/culearn.

Re-marking:

Any request for the re-marking of proposals, drafts or papers must be submitted in writing within two weeks of that assignment or paper first being returned to the group. The request should contain a detailed explanation of why you feel you should receive a higher mark. Please note that re-marking will apply to the entire assignment or paper, and not just to the contentious question. As a result, the revised mark may be higher than, lower than or the same as the original mark.

Plagiarism:

Please be aware that plagiarism is a serious offence at Carleton and should be recognized and avoided. For further information on how to do so, please see “Pammett on Plagiarism and Paraphrasing” at www.carleton.ca/economics/courses/writing-preliminaries.

The University Senate defines plagiarism as “presenting, whether intentionally or not, the ideas, expression of ideas or work of others as one’s own.” This can include:
· reproducing or paraphrasing portions of someone else’s published or unpublished material, regardless of the source, and presenting these as one’s own without proper citation or reference to the original source;
· submitting a take-home examination, essay, laboratory report or other assignment written, in whole or in part, by someone else;
· using ideas or direct, verbatim quotations, or paraphrased material, concepts, or ideas without appropriate acknowledgment in any academic assignment;
· using another’s data or research findings;
· failing to acknowledge sources through the use of proper citations when using another’s works and/or failing to use quotation marks;
· handing in "substantially the same piece of work for academic credit more than once without prior written permission of the course instructor in which the submission occurs."

Plagiarism is a serious offence that cannot be resolved directly by the course’s instructor. The Associate Dean of the Faculty conducts a rigorous investigation, including an interview with the student, when an instructor suspects a piece of work has been plagiarized. Penalties are not trivial. They can include a final grade of "F" for the course.
Intellectual Property Rights Regarding Course Material:

Please note: “Classroom teaching and learning activities, including lectures, discussions, presentations, etc., by both instructors and students, are copy protected and remain the intellectual property of their respective author(s). All course materials, including PowerPoint presentations, outlines, and other materials, are also protected by copyright and remain the intellectual property of their respective author(s). Students registered in the course may take notes and make copies of course materials for their own educational use only. Students are not permitted to reproduce or distribute lecture notes and course materials publicly for commercial or non-commercial purposes without express written consent from the copyright holder(s).” (See https://carleton.ca/provost/2015/calendar-dates-and-course-materials-sharing-website/)

Requests for Academic Accommodation:

You may need special arrangements to meet your academic obligations during the term. For an accommodation request, the processes are as follows:

Pregnancy obligation:

Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, visit the Equity Services website: carleton.ca/equity/wp-content/uploads/Student-Guide-to-Academic-Accommodation.pdf

Religious obligation:

Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, visit the Equity Services website: carleton.ca/equity/wp-content/uploads/Student-Guide-to-Academic-Accommodation.pdf

Academic Accommodations for Students with Disabilities:

The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision.

If you have a documented disability requiring academic accommodations in this course, please contact the Paul Menton Centre for Students with Disabilities (PMC) at 613-520-6608 or pmc@carleton.ca for a formal evaluation or contact your PMC coordinator to send your instructor your Letter of Accommodation at the beginning of the term. You must also contact the PMC no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with your instructor as soon as possible to ensure accommodation arrangements are made. For more details, visit the Paul Menton Centre website: carleton.ca/pmc
Survivors of Sexual Violence:

As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and is survivors are supported through academic accommodations as per Carleton's Sexual Violence Policy. For more information about the services available at the university and to obtain information about sexual violence and/or support, visit: carleton.ca/sexual-violence-support

Accommodation for Student Activities:

Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation must be provided to students who compete or perform at the national or international level. Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. https://carleton.ca/senate/wp-content/uploads/Accommodation-for-Student-Activities-1.pdf

For more information on academic accommodation, please contact the departmental administrator or visit: students.carleton.ca/course-outline.
