

Cannabis Research Permit Application

Directions

Environmental Health & Safety

- Submit the completed form via email to <u>Nancy.delcellier@carleton.ca</u>
- In the event of insufficient space, please attach additional pages labelled with the applicable section number.

1. General Information		
Proposed start date:		
Expected completion date:		
2. Principal Investigator		
Principal Investigator:		
Department:		
Phone:	_	
E-mail:	_	
3. Research Summary		
Title(s)		
Research type:		
Select all that apply		
☐ Analysis/assessment	☐ Research with human participants is not	
\square Growing conditions	considered clinical trials e.g. assessment of taste, sight, smell or touch	
☐ Horticultural practices	☐ In-vitro	
☐ Research with human participants. If yes provide REB approval number:	☐ In-vivo (animal research). If yes provide AUP number:	
☐ Human clinical trials. If yes, include No Objection Letter issued by Health Canada.	☐ Animal research is a veterinary clinical trial. If yes, include Experimental Study Certificate issued by Health Canada	

☐ Animal research is not a veterinary clinical trial.	☐ This project involves synthesis of cannabinoids				
☐ Plant genetics	☐ This project involves production of cannabis				
□ Plant breeding□ Processing practices	products ☐ This project involves teaching activities				
☐ Pest control	☐ Other. Please describe:				
☐ This project involves cultivation, growth and/or propagation					
Using plain language, please provide an overview of th	e research program.				
Objectives/Intent					
Description of Project including Methodology If growth, propagation or cultivation is involved, include a description of odour control strategies.					
4. Personnel					
a) Designate:					
The Designate must be a faculty member, professional staff member or a senior technician. Graduate students may not be named as Designates.					
Designate(s) in absence of PI:					
Department:					

required.

Phone: _____ E-mail: Access required? ☐ Y / ☐ N b) Investigative Personnel: ☐ I confirm that all personnel involved in the work described in this application are at least 19 years old. ☐ I confirm that I and all personnel involved in this work have completed training in Cannabis Research and that new personnel will only be permitted to begin work upon completion of this training. 5. Other Approvals This project involves the use of radioisotopes: \square No \square Yes. If yes, provide permit #: This project involves the use of biohazards (microorganisms): □No □Yes. If yes, provide permit #: 6. Cannabis Materials Select one of the following: ☐ This project involves the use of approved cultivars of industrial hemp only (i.e. THC concentration 0.3% or less THC in leaves or flowering heads) ☐ This project involves the use of cultivars of industrial hemp only. Cultivars are not approved. ☐ This project involves the use of cannabis that is not classified as industrial hemp. Source Sources of cannabis must be from a legal source. ☐ The cannabis will be obtained from a licensed source in Canada (e.g. licensed retailer, licensed cultivator, licensed processor). ☐ The cannabis will be imported under a Health Canada import permit as well as CFIA import permit if

Cannabis Material	Maximum quantity at any one time	Maximum quantity annually	Units	Equivalent dry weight cannabis	Description

cannabinoids					
not listed above					

7. Location

Please provide information regarding all work locations that will be required for this project. Note that only buildings included in the University's license are included in the dropdown menu. Buildings are named as per the Physical Resources list of buildings and are listed in order of their building number.

Project Sites

Building	Room Number	Purpose/ Type (e.g. lab, growth, storage, animal holding, other)	Cannabis Research Security Level (determined by the quantity and activity outlined above)

Security Measures

Physical security measures that will be taken to prevent unauthorized access (check all that apply):

Laboratory

☐ Applicable
☐ Not applicable
☐ Lab remains locked when not occupied
☐ Access restricted. Access by key.
\square Access restricted. E-access (key card or fob access). Access records maintained
\square Unsupervised access restricted to only those involved in the project
☐ Room monitored for intrusion via audible alarm
☐ Intrusion detection alarm monitored remotely via Campus Safety Services
☐ Monitored via video surveillance Laboratory continued
☐ Intrusion detection system includes door sensors
☐ Intrusion detection system includes motion detection
☐ Other? Describe:

Greenhouse

☐ Applicable
☐ Not applicable
\square Greenhouse remains locked when not occupied
☐ Access restricted. Access by key.
$\hfill\square$ Access restricted. E-access (key card or fob access). Access records maintained
$\hfill\square$ Unsupervised access restricted to only those involved in the project
☐ Greenhouse monitored for intrusion via audible alarm
\square Intrusion detection alarm monitored remotely via Campus Safety Services
☐ Monitored via video surveillance
☐ Intrusion detection system includes door sensors
☐ Intrusion detection system includes motion detection
☐ Other? Describe:
Growth chamber
☐ Applicable
☐ Not applicable
\square Growth chamber remains locked when not occupied
☐ Access restricted. Access by key.
$\hfill\square$ Access restricted. E-access (key card or fob access). Access records maintained
$\hfill\square$ Unsupervised access restricted to only those involved in the project
\square Growth chamber monitored for intrusion via audible alarm
☐ Alarm monitored remotely via Campus Safety Services
□ Monitored via video surveillance

Storage			
□ Lock box			
☐ Locked cabinet, refrigerator or freezer			
□ Safe			
☐ Cabinet, refrigerator, freezer or safe secured to the wall or floor			
☐ Dedicated locked storage room			
☐ Monitored for intrusion via audible alarm			
☐ Intrusion detection alarm monitored remotely via Campus Safety Services			
☐ Monitored via video surveillance			
☐ Intrusion detection system includes motion detection			
\square Access to storage location restricted to only those involved in the project			
☐ Access to storage location restricted to PI and designate			
☐ Records of access to storage location maintained			
☐ Other. Describe:			
Other security measures			
☐ Additional /alternate physical measures used (if any).			
Describe:			

Transfer

Please provide information regarding any anticipated transfers of materials to individuals not listed on the application. With very limited exceptions, all cannabis materials must be destroyed at the end of the project. Note that all transfers must be appropriately documented within the inventory and approved in advance.

Name of the Institu	te or organizati	on:			_	
Name of contact:						
Purpose:						
Health Canada Licer	nse #·					
ricaltii Callada Licei	13C #					
8. Destruction	on and W	/ast	e Manageme	ent		
\square I confirm that the application.	SOP for destru	uction	of cannabis wastes w	vill be ir	ncluded with t	he submission of this
	Canada as part	t of th	erials are to be destro e University's Cannab o be used.		•	•

Transfer	- 1					
Destruction/ dispos	aı					
Access to storage						
Other						

10. Principal Investigator's Certification

I certify that the information provided in this application form is accurate and that any changes will be submitted for approval prior to initiation.

I agree to follow all University Cannabis Research program and procedures as applicable to my project.

I accept responsibility for training of all research, facility and support personnel involved in work

described in this application.	pport personner involved in work
I accept responsibility for safeguarding the cannabis from loss,	theft or unauthorized access.
