Emergency Eyewash Weekly Inspection Sign-Off

Eyewashes must be inspected weekly. Follow the directions below for how to perform the eyewash test effectively.

1. Visually inspect the eyewash for any missing parts (e.g. caps, nozzles, etc.)
2. Activate the eyewash and run for at least three minutes noting if the following are adequate: Spray pattern, flow, and temperature
3. Sign off or report any deficiencies to fmp.service.centre@carleton.ca or at ext. 3668.
