

Fire Safety Tips

HOME SAFETY

SMOKE ALARMS

- Install smoke alarms in frequented areas around your home
- Test your smoke alarms regularly, and change the batteries when necessary

USE PROPER STORAGE

- DO NOT store liquids near electronics
- Storage spaces should be kept tidy and easily accessible

FIRE EXTINGUISHERS

- Invest in a fire extinguisher for your home and car to keep handy in the event of fire
- Learn how to properly use your fire extinguisher and have it inspected regularly

KEEP YOUR SPACE CLEAN

- Keep your living spaces clean to prevent accidents
- Everything in your home should have its own place
- Keep hallways, doors and windows free of clutter

MAINTAIN EQUIPMENT

- Avoid tangling electrical cords, and do not use cords that are damaged
- There should be no exposed wiring or ungrounded circuits

HAVE A PLAN

- Have an escape plan to get yourself to safety in the event of a fire
- DO NOT re-enter the building to retrieve forgotten items
