W.E. Cowie Innovation Award
Request for Applications

Terms: Awarded on the recommendation of the Dean of Engineering and Design to a single student or one team of students in the final year of a Bachelor of Engineering degree for demonstrating top quality innovation in engineering. Established in 2006 by Mrs. Alexandra Cowie in memory of her husband Wilbur Elliot Cowie, BASc, MASc (Toronto), PEng, NDC

Value: $ 10,000

Criteria: The sole criteria for this award is demonstrated innovation in engineering.

Eligibility: All students in the final year of the BEng program are eligible to apply. Students who have completed all of their courses and have applied to graduate are eligible.

Applications: Must include
• A letter of application from the student(s) applying including information regarding their record of innovative work and the role of innovation in their future plans
• Letter(s) of support from faculty member(s)
• In the case of group applications, the application should contain details regarding the innovative work of each individual in the group.

Submissions: Application packages must be submitted through the Chair of the Department. If a team of students from different departments is applying they may submit through the Chair of the Department in charge of the program to which the majority of the students belong.

• Prof. R. Miller, Department of Mechanical and Aerospace Engineering, 3135 ME
• Prof. P. Van Geel, Department of Civil and Environmental Engineering, 3432 ME
• Prof. N. Tait, Department of Electronics, 5170 ME
• Prof. Y. Labiche, Department of Systems and Computer Engineering, 4456 ME

Deadline: All application packages must be submitted to the Department Chair no later than April 13, 2017.

For clarification and further details please contact the Office of the Associate Dean of Engineering and Design:
