

# Sometimes grades don't tell the whole story.

*The Enriched Support Program helps students start university while earning admission to a degree.*

*Emily Marginson and Rosena Zhuang, ESP mentors*

**The Enriched Support Program** (ESP), offered through the Centre for Initiatives in Education, provides structured support that helps with the transition to university level studies. As an ESP student, you can enroll in up to three first-year classes per term and have access to a network of supports.

To assess your eligibility, the ESP looks at your entire transcript, a written application, and letters of reference. Learn more at **[carleton.ca/esp](https://carleton.ca/esp)**
