Course description: Introduction to Indigenous Studies

This seminar explores the ever changing world of Aboriginal people who live on Turtle Island (North America). Throughout the course we will be discussing both historical and contemporary issues that have shaped the changing lives of First Nations, Inuit and Métis. The course brings an Aboriginal perspective to the class and focus will be given to the concept of cultural survivance.

This introductory class provides students with a holistic introduction to central topics, issues and historical background to Indigenous studies. The course will provide an overview of First Nations, Métis and Inuit people and will bring in other Indigenous groups from around the world to show the ongoing struggles of Indigenous people worldwide. We will explore topics including, but not limited to: identity, art, Aboriginal/ Canadian relations, residential schools, economic development and business, traditional knowledge and community life, colonialism, spiritual beliefs and rituals.

The goal of this course is to appreciate the diverseness of Aboriginal cultures in Canada and allow students to develop the ability to think critically about their own experiences and culture.

The course will challenge your way of thinking about each other and enable you to reflect on your own background.
