

## YCW Student Summer Job (a position sponsored by the Government of Canada)

### Audio-Visual Collections Assistant

#### Job Location:

Audio-Visual Resource Centre  
School for Studies in Art and Culture  
460 St. Patrick's Building  
Carleton University  
1125 Colonel By Drive  
Ottawa, ON K1S 5B6

**Duration of job:** May 29 - August 11/June 5 – August 18, 2017

#### Qualifications:

**Education:** Undergraduate student with a minimum of 8 combined credits in art and architectural history and film studies.

**Computer skills:** Familiarity with database principles and software, familiarity with digital photography and basic image editing techniques.

**Language proficiency:** English oral (Fluent); English written (Fluent)

**Eligibility:** Candidate must be legally entitled to work in Canada, be a Canadian Citizen, permanent resident or person granted refugee status in Canada. They must have registered in the YCW on-line candidate inventory and meet the eligibility criteria of the YCW Summer Work Experience Program.

#### Job Description:

**Cataloguing:** Produce original descriptive cataloguing and classification for digital image files, ensuring that applicable and appropriate metadata standards are consistently applied. Establish new name authorities as needed. These tasks frequently involve doing research in order to find and/or verify information, i.e. searching out relevant source material in books, scholarly journals and authoritative web-based resources; assign mutually exclusive accession numbers to individual items; formulate referrals, notes and additional access points in order to provide different approaches to an item.

**Digital Image Processing:** Capture original and copy material using a Nikon D200 digital camera, a Reprovit copy stand, a computer and digital image capture software; scan print and slide materials using a flatbed and a dedicated film/slide scanner, a computer and scanning software; edit resulting material using professional image editing software; upload master files to a multi-media server, ensuring all necessary metadata has been captured; keep detailed log of material being processed, noting any

difficulties or inconsistencies and keeping track of the material as it progresses through the various stages of the acquisition process (using existing forms).

**35 mm Slide Appraisal and Deaccessioning:** Determine the quality and source of the images captured on 35 mm slides; search for equivalents or acceptable alternatives in subscription based, local or Creative Commons image databases; remove and deaccession those which are either readily available elsewhere or of poor quality; create detailed notes of this process for consultation at later stages of the project.

**16mm Film Appraisal and Deaccessioning:** Determine the film stock type and the physical state of the films and search for their availability in other media from various sources; remove and deaccession those which are either readily available in various media elsewhere or that are too physically deteriorated to be projected or transferred to a digital medium; rehouse and re-label films that are to be kept which are in corroding metal cans; fill out print evaluation forms and update database records to reflect any changes.

**Deadline:** Submit resumé and covering letter by May 5th, 2017.
