

What's on our menu?

Local

Sustainable

Fairtrade

Compostable

Currently, 24% of dining services purchases are comprised of sustainable food purchases and 93% of coffee purchases through local concepts are Fair Trade and many are also organic.

Dining Services also support local farmers by purchasing produce in season – look for local vegetables and fruits within our locations, they change by the season.

When ordering food for events on campus, look to purchase the local menu and highlight initiatives such as compostable packaging and cutlery, non-bleached napkins and fairtrade coffee.

Sustainability Tip of the Month
