FOOD STUDIES: Matter, Meaning & Movement

Edited by David Szanto, Amanda Di Battista & Irena Knezevic

Template 1: Perspectives

Perspectives are intended to synthesize a conceptual or broad set of understandings about food, introducing an area of practice, study, or attention. Perspectives should give readers a global understanding of the subject at hand, without necessarily defining or delimiting the scope and/or heterogeneity of the subject. Perspectives should range from 1000 to 3000 words.

The following template is intended as a guide. Subheadings can be renamed, added or removed, provided the submission generally follows this arrangement.
