At the Faculty of Public Affairs, we’re known for groundbreaking and innovative research that influences public policy and practice at home and abroad. FPA Research Series is a celebration of that research. It is an opportunity for us to bring together Carleton scholars with researchers and experts from across Canada and to share our research with a wider audience. FPA Research Series events highlight research that addresses some of the biggest challenges and most interesting trends in our society today.

**October**
- **October 1**: A Bridge Across Civilizations featuring H. Masud Taj and Karim H. Karim
