## Participation

Students are expected to come to every class (lectures and tutorials) prepared to discuss the readings and course content, participate in learning activities and work towards course learning objectives. Participation will be evaluated as a combination of attendance (the number of classes attended), completion of learning activities (small in-class exercises that are marked as complete/incomplete) and engagement (a qualitative assessment of your contributions in tutorials). Tutorial engagement includes: coming to tutorial prepared (having attended lecture and completed required readings), answering questions, and actively engaging in discussions and activities.

If you must miss a tutorial or lecture due to illness or emergency, please inform your TA as soon as possible to avoid penalties to your participation grade. See below for more information about requests for accommodations due to short term incapacitation.

## Assignments

Detailed instructions and preparation for two short assignments will be provided during lectures or tutorial time and posted on Brightspace well ahead of the due dates. Where possible, graded assignments which were submitted on time will be posted no later than two weeks after they are submitted. Students are encouraged to attend office hours with their TAs to discuss graded work and receive detailed feedback.

## Late Assignments and Extensions

Unforeseen and emergency circumstances may arise which understandably prevent students from submitting work on time (for example, illness, childcare responsibilities, death of a loved one, etc.). If this happens, **students should contact their TA as soon as possible and no later than three working days after the due date to request a formal accommodation.** The late penalty for assignments is -5% a day.

## Notes on Communication: “Ask Your Teaching Team” and Emails

Students are encouraged to post questions about the course or assignments on the “Ask Your Teaching Team” discussion forum on the Brightspace page. The team will respond to posts at least once a day during the week between 8:30am and 4:30pm (Monday to Friday). Private questions about standing in the course, accommodations, etc. may be emailed to the Instructor or your TA. Email should be used sparingly.

Students are expected to use their Carleton email addresses or the email function on Brightspace for all emails. It is important to include the course code (GEOG 2023) in the subject line of all emails. To ensure clear communication, please use proper spelling, grammar and punctuation. The teaching team will make every effort to respond to emails within 2-3 working days. Please note that teaching staff generally respond to emails between 8:30am and 4:30pm on weekdays, and so emails received on Friday may not be responded to until the following Tuesday.

## Office Hours

Students are strongly encouraged to attend office hours with their TAs to raise questions and concerns about the course, readings, or assignments. Details about office hours will be posted on Brightspace.

## Copyright and Intellectual Property

Classroom teaching and learning activities, including slides, reflections, discussions, assignments, presentations, etc., by both instructors and students, are copy protected and remain the intellectual property of their respective author(s). All course materials, including PowerPoint presentations, outlines, and other materials, are also protected by copyright and remain the intellectual property of their respective author(s). Students registered in the course may take notes and make copies of course materials for their own educational use only. Students are not permitted to reproduce or distribute notes and course materials publicly for commercial or non-commercial purposes without express written consent from the copyright holder(s).

Aside from the official legal contexts above, please note that the collective creation of a safe, trusting, and supportive learning environment to discuss and debate challenging subjects is an important expectation of students, faculty, and guests in this class. For this reason, all participants are asked to refrain from recording, copying, or re-posting anything from lectures or tutorials outside of the Brightspace course page.

## Academic Integrity

Students are responsible for reading and familiarizing themselves with Carleton's Academic Integrity Policy. This policy is available here: <https://carleton.ca/registrar/academic-integrity/>

## Plagiarism

This includes reproducing or paraphrasing portions of someone else's published or unpublished material, regardless of the source, and presenting these as one's own without proper citation or reference to the original source. Examples of sources from which the ideas, expressions of ideas or works of others may be drawn from include but are not limited to: books, articles, papers, literary compositions and phrases, performance compositions, chemical compounds, artworks, laboratory reports, research results, calculations and the results of calculations, diagrams, constructions, computer reports, computer code/software, material on the internet and/or conversations.

Examples of plagiarism include, but are not limited to:

- any submission prepared in whole or in part, by someone else, including the unauthorized use of generative AI tools (e.g. ChatGPT)
- using ideas or direct, verbatim quotations, paraphrased material, algorithms, formulae, scientific or mathematical concepts, or ideas without appropriate acknowledgment in any academic assignment;
- using another's data or research findings without appropriate acknowledgement;
- submitting a computer program developed in whole or in part by someone else, with or without modifications, as one's own; and
- failing to acknowledge sources through the use of proper citations when using another's work and/or failing to use quotations marks.

Plagiarism is a serious offence that cannot be resolved directly by the course's instructor. The Associate Dean of the Faculty conducts a rigorous investigation, including an interview with the student, when an instructor suspects a piece of work has been plagiarized. Penalties are not trivial. They can include a final grade of "F" for the course.

### Prohibitions on the Use of Generative Artificial Intelligence Tools (e.g. ChatGPT)

The use of generative artificial intelligence tools for the creation or submission of graded work, or while completing learning activities in tutorials or lectures, **is prohibited in GEOG 2023**.

accommodations in this course, please contact PMC at 613-520-6608 or [pmc@carleton.ca](mailto:pmc@carleton.ca) for a formal evaluation. If you are already registered with the PMC, please request your accommodations for this course through the Ventus Student Portal at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (*if applicable*). Requests made within two weeks will be reviewed on a case-by-case basis. For final exams, the deadlines to request accommodations are published in the University Academic Calendars. After requesting accommodation from PMC, meet with the Course Instructor during office hours to ensure accommodation arrangements are made. Please consult the PMC website for the deadline to request accommodations for the formally-scheduled exam (if applicable).
