

GEOG 2300: Space, Place, and Culture
Winter 2024
COURSE OUTLINE - Full syllabus provided in class

Instructor: Dr. Emilie Cameron
emilie_cameron@carleton.ca

Course Description:

The purpose of this course is to critically engage the geographic dimensions of social and cultural life. We will learn how social difference and social change are organized and expressed geographically. How do space and place reinforce and naturalize processes of differentiation based on 'race', class, ability, gender, sexuality, and age? How is social difference organized and expressed within bodies, rooms, buildings, neighborhoods, cities, and globally? And how is geography connected to processes of social change and transformation?

We will begin by familiarizing ourselves with some key concepts in social and cultural geography, and then apply these to a range of topics. Our goal will be to analyze social phenomenon geographically, to learn how to think geographically, and to deepen our understanding of the geographic dimensions of social issues.

Discussion and participation are an important part of this class: be prepared to speak up, share ideas, and ask questions. Students will also be expected to read academic articles and become familiar with the ways in which geographers think, read, and write. Students can expect to develop their writing and critical thinking skills as the course progresses.

Lectures (2 hours weekly):

Thursdays, 11:35am to 1:25pm

Discussion Groups (1 hour weekly):

Each student must register in a Discussion Group that they will attend weekly for supplementary material, discussion of assigned readings, submission of assignments, and help with course material or assignments. **It is essential that you attend Discussion Groups.** Teaching Assistants will guide discussions and be available for extra help during these times. Discussion Groups are scheduled on Fridays at 8:35am; 12:35pm; and 4:35pm.

Course Readings: will be provided on ARES.

Teaching Assistants:

Mikayla Hinton, MikaylaHinton@cmail.carleton.ca

Lisa Wong, lisawong3@cmail.carleton.ca

Course Communications:

Wherever possible course content will be posted and communicated using **Carleton Brightspace**. For any instructor questions regarding assignments, exams, lectures, the syllabus, or other course details, please **post your question in the "Ask the Instructor" discussion forum on Brightspace**. Answers will be

posted publicly so others can benefit from the information, and students are encouraged to answer each others' questions too.

If you have questions about your personal circumstances, please email your TA or me directly. **Please include the course number in the subject line of any course-related emails** (i.e. GEOG2300 - subject of email). We will do our best to respond promptly, but emails received beyond regular weekday hours (9am - 5pm) will be addressed on the next working day.

COVID: It is important to remember that COVID is still present in Ottawa. There are a number of actions you can take to lower your risk and the risk you pose to those around you including being vaccinated, wearing a mask, staying home when you're sick, washing your hands and maintaining proper respiratory and cough etiquette. **If you feel ill or exhibit COVID-19 symptoms do not come to class or campus.** If you feel ill or exhibit symptoms while on campus or in class, please leave campus immediately. All members of the Carleton community are required to follow requirements and guidelines regarding health and safety which may change from time to time. For the most recent information about

Carleton's COVID-19 response and health and safety requirements please see the [University's Environmental Health and Safety website](#).

Masks: Masks are not currently mandatory in university buildings and facilities. However, public health officials continue to recommend masking when indoors, particularly if physical distancing cannot be maintained. If you test positive for COVID, have been in close contact with someone who has tested positive, or are unwell, please do not attend class that day.

Laptops and Cellphones: Laptop and cellphone policies are designed to encourage a productive, engaging, and positive learning environment for all students. I understand that some students prefer to type notes rather than write notes using a pen and paper. Responsible use of laptops is permitted, although students are encouraged to put laptops away during class discussions and to take notes using pen and paper. **Students using their laptops to check email, social media, or other non-course related activities will be asked to leave their laptops at home. Cell phones are not permitted in class.** If you are expecting an urgent call, please ensure the ringer is off and please step outside. If you require use of a laptop for other reasons, please discuss this with the instructor.

Academic Integrity: Academic integrity is constituted by the five core fundamental values of honesty, trust, fairness, respect and responsibility (see www.academicintegrity.org). These values are central to the building, nurturing and sustaining of an academic community in which all members of the community will thrive. Students are reminded of the seriousness with which Carleton University treats academic dishonesty of any form, particularly plagiarism.

The University Academic Integrity Policy (<http://www2.carleton.ca/studentaffairs/academic-integrity/>) defines plagiarism as "*presenting, whether intentionally or not, the ideas, expression of ideas or work of others as one's own.*" This includes reproducing or paraphrasing portions of someone else's published or unpublished material, regardless of the source, and presenting these as one's own without proper citation or reference to the original source. Examples of sources from which the ideas, expressions of ideas or works of others may be drawn from include but are not limited to: books, articles, papers, literary compositions and phrases, performance compositions, chemical compounds, artworks, laboratory reports, research results, calculations and the results of calculations, diagrams, constructions, computer reports, computer code/software, material on the internet and/or conversations.

Examples of plagiarism include, but are not limited to:

- any submission or assessed content prepared in whole or in part, by someone else, including the unauthorized use of generative AI tools (e.g., ChatGPT);
- using ideas or direct, verbatim quotations, paraphrased material, algorithms, formulae, scientific or mathematical concepts, or ideas without appropriate acknowledgment in any academic assignment;
- using another's data or research findings without appropriate acknowledgement;
- submitting a computer program developed in whole or in part by someone else, with or without modifications, as one's own; and
- failing to acknowledge sources through the use of proper citations when using another's work and/or failing to use quotations marks.

Plagiarism is a serious offence that cannot be resolved directly by the course's instructor. The Associate Dean of the Faculty conducts a rigorous investigation, including an interview with the student, when an instructor suspects a piece of work has been plagiarized. Penalties are not trivial. They can include a final

grade of “F” for the course. ***It is your responsibility to familiarize yourself with the regulations concerning academic integrity and to ensure that your course work conforms to the principles of academic integrity.***

Statement on generative AI (i.e., ChatGPT):

Any use of generative AI tools to produce assessed content is considered a violation of academic integrity standards, as noted above. This includes not just your written assignments (i.e., essay outline and final essay) but also your oral contributions to class (contributions to class discussion, oral presentations, and other forms of oral participation). Using generative AI tools in this course undermines the development of core academic skills your assignments are meant to support, including reading and comprehension skills, critical analysis skills, and effective oral and written communication skills. Use of generative AI could result in a mark of “0” on the assessed content or referral to the Associate Dean for potential violation of Carleton’s academic integrity policy.
