I. **Course description:** Acquisition, manipulation, and display of spatially referenced information using Geographic Information Systems (GIS). Georeferencing and orthorectification, spatial modeling, site selection, watersheds, viewsheds, hotspot and cluster analysis, interpolation, creation of DEMs, DSM, etc.

II. **Preclusions:** GEOG3005 (no longer offered)

III. **Learning Outcomes:**
- Use theoretical knowledge to undertake advanced and specialized raster analysis
- Understand and use advanced GIS project planning methodologies
- Determine suitable interpolation methods based on data and application requirements

IV. **Texts:** none, readings will be assigned and provided in PDF format

V. **Course calendar** *(tentative: dates and topics subject to change)*:

<table>
<thead>
<tr>
<th>lecture date</th>
<th>Workshop topic</th>
<th>Due in Workshop</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jan 10</td>
<td>welcome + intro to course + basics of GIS &quot;boot camp&quot;</td>
<td></td>
</tr>
<tr>
<td>Jan 17</td>
<td>Guest Lecture (TBD)</td>
<td>Boot camp submission</td>
</tr>
<tr>
<td>Jan 24</td>
<td>Working with Raster Data + An introduction to the Spatial Analyst extension + Raster-vector, vector-raster conversion + basic grid operations.</td>
<td></td>
</tr>
<tr>
<td>Jan 31</td>
<td>Georeferencing and orthorectification</td>
<td>Lab1: Basic grid operations</td>
</tr>
<tr>
<td>Feb 7</td>
<td>Spatial Interpolation 1: local and global interpolators</td>
<td>Lab2: georeferencing</td>
</tr>
<tr>
<td>Feb 14</td>
<td>Spatial Interpolation 2: geostatistical interpolators</td>
<td></td>
</tr>
<tr>
<td>Feb 21</td>
<td><em>Winter break</em></td>
<td></td>
</tr>
<tr>
<td>Feb 28</td>
<td>Lab test</td>
<td>Lab 3: Spatial interpolation</td>
</tr>
<tr>
<td>March 6</td>
<td>Special Topics1: Watersheds, Viewsheds</td>
<td></td>
</tr>
<tr>
<td>March 13</td>
<td>Special Topic 2: Site Suitability Analysis</td>
<td></td>
</tr>
<tr>
<td>March 20</td>
<td>Work on final project</td>
<td>Lab 4: Special topics</td>
</tr>
<tr>
<td>March 27</td>
<td>Work on final project</td>
<td></td>
</tr>
<tr>
<td>April 3</td>
<td>wrap up</td>
<td>Final Project</td>
</tr>
</tbody>
</table>
VI. Evaluation:
4 labs @ 50% (variable weighting)
Bootcamp exercise @ 5%
1 lab test @ 15%
final project @ 20%
5 quizzes at 2% each

Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by the instructor may be subject to revision. No grades are final until they have been approved by the Dean.

Late Policy: A hard copy of all lab assignments must be handed in to your TA or instructor no later than the BEGINNING of the scheduled meeting on the assignment due date, unless otherwise stated on the assignment sheet or syllabus. No late assignments will be accepted, with the exception of medical issues/illness or if you have already arranged for an academic accommodation as described in subsequent sections of this syllabus. In such cases you must make arrangements with the course instructor at least 24 hours prior to the due date. It is your responsibility to ensure that the instructor or TA receive your submitted hard copies. If you are unable to submit an assignment in person, it is recommended that you email the instructor or TA with a digital version in addition to a hard copy left in the assignment drop-slot on the door of the departmental mail room. However, this option should only be considered as a last resort.

Lecture/Lab attendance: While attendance to lectures and labs is not recorded, it is highly recommended that you attend all sessions. Software demonstrations and one-on-one help will be available but the workshops will also cover theoretical aspects of GIS/Geomatics that will help you with the interpretation of your labs and final project.

VII. Statement on Plagiarism

PLAGIARISM
The University Senate defines plagiarism as “presenting, whether intentionally or not, the ideas, expression of ideas or work of others as one’s own.” This can include:
• reproducing or paraphrasing portions of someone else’s published or unpublished material, regardless of the source, and presenting these as one’s own without proper citation or reference to the original source;
• submitting a take-home examination, essay, laboratory report or other assignment written, in whole or in part, by someone else;
• using ideas or direct, verbatim quotations, or paraphrased material, concepts, or ideas without appropriate acknowledgment in any academic assignment;
• using another’s data or research findings;
• failing to acknowledge sources through the use of proper citations when using another’s works and/or failing to use quotation marks;
• handing in "substantially the same piece of work for academic credit more than once without prior written permission of the course instructor in which the submission occurs."

Plagiarism is a serious offence that cannot be resolved directly by the course’s instructor. The Associate Dean of the Faculty conducts a rigorous investigation, including an interview with the student, when an instructor suspects a piece of work has been plagiarized. Penalties are not trivial. They can include a final grade of "F" for the course.

VIII. Academic Accommodations
You may need special arrangements to meet your academic obligations during the term. For an accommodation request the processes are as follows:

Pregnancy obligation: write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist.

Religious obligation: write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist.

Academic Accommodations for Students with Disabilities: The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the PMC website for the deadline to request accommodations for the formally-scheduled exam (if applicable).

Survivors of Sexual Violence
As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and where survivors are supported through academic accommodations as per Carleton's Sexual Violence Policy. For more information about the services available at the university and to obtain information about sexual violence and/or support, visit: https://carleton.ca/equity/sexual-assault-support-services
Accommodation for Student Activities
Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation must be provided to students who compete or perform at the national or international level. Write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist.
