This course provides an introduction to the study of Greek antiquity, the discipline of Classics and its methodologies. The culture and society will be set in historical context and studied through readings from representative ancient authors (in English translation) and through the art and architecture of the period. Precludes additional credit for CLCV 1000, and CLCV 1109.

Required Readings:

Text to purchase: David Sansone, *Ancient Greek Civilization*. 2nd ed. (Wiley-Blackwell, 2009)

Additional readings: Students will also be required to read some primary sources (ie. literature written by ancient Greek authors). This includes five “books” (ie. chapters) of Homer, three ancient plays, and one dialogue by Plato. These are not long works and can each be read in a couple hours.

I recommend the following translations which are freely available online, but each work can be found in hard copy in most libraries or in other translations online. I don't mind whose translation you use, but vocabulary, accuracy, and spelling can vary.

Deferred Term Work

In some situations, students are unable to complete term work because of illness or other circumstances beyond their control, which forces them to delay submission of the work.

Students who claim illness, injury or other extraordinary circumstances beyond their control as a reason for missed term work are held responsible for immediately informing the instructor concerned and for making alternate arrangements with the instructor and **in all cases this must occur no later than three (3.0) working days after the term work was due.**

The alternate arrangement must be made before the last day of classes in the term as published in the academic schedule. Normally, any deferred term work will be completed by the last day of term. More information is available [in the calendar](#).

Deferred Exams

Students who do not write/attend a final examination because of illness or other circumstances beyond their control may apply to write a deferred examination.

1. be made in writing to the Registrar's Office **no later than three working days after the original final examination or the due date of the take-home examination;** and
2. be fully supported by appropriate documentation and in cases of illness by a medical certificate dated no later than one working day after the examination or by appropriate documents in other cases. Medical documents must specify the date of the onset of the illness, the (expected) date of recovery, and the extent to which the student was/is incapacitated during the time of the examination. The University's preferred medical form can be found at the Registrar's Office [forms and fees page](#).

The granting of a deferral also requires that the student has performed satisfactorily in the course according to the evaluation scheme established in the Course Outline, excluding the final examination for which deferral privileges are requested. Reasons for denial of a deferral may include, among other conditions, a failure to (i) achieve a minimum score in the course before the final examination; (ii) attend a minimum number of classes; (iii) successfully complete a specific task (e.g. term paper, critical report, group project, computer or other assignment); (iv) complete laboratory work; (v) successfully complete one or more midterms; or (vi) meet other reasonable conditions of successful performance.

More information can be found [in the calendar](#).

Any questions related to deferring a Final Exam or Final Assignment/Take Home Examination should be directed to: [Registrar's Office](#)
