

**CLCV / HIST 4210 Topics in Ancient History:  
PAGANS AND CHRISTIANS IN LATE ANTIQUITY**Wednesdays and Fridays 8:35 - 9:55 (Sept 7—Dec 7) \*in-person only**Dr. Timothy Pettipiece**Course Email: [Timothy.Pettipiece@carleton.ca](mailto:Timothy.Pettipiece@carleton.ca)**COURSE DESCRIPTION**

One of the great historical puzzles of the late classical world is how the Roman Empire was transformed from a relatively inclusive and traditionally polytheist religious outlook to and an exclusively Christian monotheist worldview. This radical cultural and religious shift is one of the key factors that define the period known as "Late Antiquity." This course will examine this process through a close reading of some key sources from both a "pagan" and Christian perspective. Special attention will be placed on the social, political, philosophical, and theological factors that influenced rival religious identities in the period.

*\*This course will be of interest to students in Greek and Roman Studies, Religion, and Medieval Studies.*

**LEARNING OUTCOMES**

- Students will hone their ability to read primary sources closely and critically
- Students will place textual sources in historical and cultural context
- Students will engage with current trends in research
- Students will write a research paper on a clearly defined topic

### **INITIAL REFLECTION / PRE-ASSESSMENT (Due Sept 16 / 500 words / 5%)**

Coming into this course, how would you assess your preconceptions about the relationship between “pagans” and Christians in the later Roman Empire? What defined pagans as “pagans”? What differentiated Christians? In 500 words, try to articulate your own preconceptions about the theme of the course and what you expect to learn from it.

### **“PASSPORT” INSTRUCTIONS (10%)**

Each Passport will contain three sections:

- Summary: a 1-2 paragraph summary of the assigned reading;
- Key Points / Passages: (Minimum two) key points - citations of a line or two from the reading (including page #s) that you found particularly puzzling, instructive, provocative, or surprising, plus brief (one line) explanations of why you selected them;
- Discussion Questions: two open-ended discussion questions.
- It must also include your name and student number.

To receive credit, a hard copy of your typed Passport must be printed out and brought with you to class. They will be handed in at the end of the class. Neither hand-written copies, nor electronic copies sent to the professors either before class, or after the class has ended, will be accepted.

### **TERM PAPER (Due Dec 7 / 10 pages / 40%)**

#### ***How to choose your topic?***

This can be difficult, but it's important to select a topic that is going to sustain your interest over the course of your research and writing process. Start by thinking of the sorts of things you're normally interested in (academically or otherwise)—history, philosophy, poetry, music, economics, warfare, people, politics, religion, sexuality, art, languages, communication? Then brainstorm about any aspects of the course material that might intersect with these issues. Once you have a vague or specific idea, let me know so I can help you move forward to the research stage.

#### ***Finding Sources***

Fortunately, there are 3 university libraries in Ottawa (Carleton, Ottawa, and Saint Paul) (Note: Saint Paul doesn't allow books to be checked out so plan to do your reading on-site). Added to these are the many databases of academic journal articles, such as JSTOR. You also have the ability to request material through inter-library loan—a wonderful and underused resource. Encyclopaedias and generic websites such as Wikipedia may help get you started, but they should never be cited as sources for your paper!

#### ***Taking Notes***

The key to a good paper is a good note-taking strategy. As you read through your source material, make note of anything that might be useful or interesting for your paper. You'll likely have more than you need, but that's okay. Make sure you clearly indicate the author and page number. I tend to number my notes for easy reference later. Once you've gone through all your books/articles, etc., you can organize your notes into categories and begin structuring your paper. Avoid doing simultaneous research and writing. Research first, then write!

#### ***Time Management***

Time management is one of the most important skills in university and in life! When you are in the work-world your supervisor or manager won't respond favorably to missed deadlines. Plus, saying you had too many other tasks or personal issues may not help. Regardless of what you're studying, a good work ethic and the ability to submit work on-time will prove invaluable. You know from the start of term how many papers and assignments you have. So plan your research and writing time accordingly!

#### ***Thesis or Synthesis?***

Your paper doesn't necessarily have to "prove" or "disprove" anything, although you do have to think critically and examine your source material carefully. Your paper should show that you've understood the material, reflected upon it, and can discuss it in a clear and coherent manner. At the undergraduate level, no one is expecting you to do ground-breaking or original research. Most scholars toil for years before they have something truly original to say. Besides, this is what graduate students are supposed to do. Your job is take a large and unfamiliar chunk of information and synthesize it. Given the massive amounts of information being produced on a daily basis, this too is a very important and transferable skill.

### ***Not all information is created equal***

We live in an age with unprecedented access to massive amounts of information, especially by means of the web. Most of this information, however, has not been filtered through the informed opinion of trained experts. Much of it does not need to be, but if you are writing an academic paper, information from an amateur blog or YouTube video is not even remotely as credible as information from a peer-reviewed journal or academic publisher. Now more than ever we require critical thinking skills to sift through this avalanche of information.

### ***Proof-Reading Makes Perfect***

Even a single proof-read of your paper will help you avoid making simple grammatical, spelling, and punctuation mistakes that will otherwise seriously damage the credibility of your paper. By the way, if you didn't flinch at reading the previous heading, proof-read your paper twice!

## **NOTE ON ATTENDANCE**

If you want to succeed in this course, then attending class and keeping up with readings is essential. Please note that this is not an independent reading course or self-directed study. You are ultimately responsible for all course material (readings and lectures).

## **GRADING POLICY**

Grades in the course are earned, not negotiated. They are based on the criteria articulated in the course outline. As a rule, I do not “curve” grades, although grades of .5 are rounded up. Also, I do not offer extra credit or “do-over” assignments. Calculation errors do occasionally occur and can be easily corrected. However, please do not try to pressure or guilt me into increasing your grade based on your scholarship status or future plans.

## **PLAGIARISM**

The University Academic Integrity Policy defines plagiarism as “*presenting, whether intentionally or not, the ideas, expression of ideas or work of others as one’s own.*” This includes reproducing or paraphrasing portions of someone else’s published or unpublished material, regardless of the source, and presenting these as one’s own without proper citation or reference to the original source. Examples of sources from which the ideas, expressions of ideas or works of others may be drawn from include but are not limited to: books, articles, papers, literary compositions and phrases, performance compositions, chemical compounds, artworks, laboratory reports, research results, calculations and the results of calculations, diagrams, constructions, computer reports, computer code/software, material on the internet and/or conversations.

Examples of plagiarism include, but are not limited to:

- any submission prepared in whole or in part, by someone else;
- using ideas or direct, verbatim quotations, paraphrased material, algorithms, formulae, scientific or mathematical concepts, or ideas without appropriate acknowledgment in any academic assignment;
- using another’s data or research findings without appropriate acknowledgement;
- submitting a computer program developed in whole or in part by someone else, with or without modifications, as one’s own; and
- failing to acknowledge sources through the use of proper citations when using another’s work and/or failing to use quotations marks.

Plagiarism is a serious offence that cannot be resolved directly by the course’s instructor. The Associate Dean of the Faculty conducts a rigorous investigation, including an interview with the student, when an instructor suspects a piece of work has been plagiarized. Penalties are not trivial. They can include a final grade of “F” for the course.

### **Statement on Pandemic Measures**

It is important to remember that COVID is still present in Ottawa. The situation can change at any time and the risks of new variants and outbreaks are very real. There are [a number of actions you can take](#) to lower your risk and the risk you pose to those around you including being vaccinated, wearing a mask, staying home when you're sick, washing your hands and maintaining proper respiratory and cough etiquette.

**Feeling sick?** Remaining vigilant and not attending work or school when sick or with symptoms is critically important. If you feel ill or exhibit COVID-19 symptoms do not come to class or campus. If you feel ill or exhibit symptoms while on campus or in class, please leave campus immediately. In all situations, you should follow Carleton's [symptom reporting protocols](#).

## **Grading System at Carleton University**

Standing in a course is determined by the course instructor, subject to the approval of the faculty Dean. Standing in courses will be shown by alphabetical grades. The system of grades used, with corresponding grade points and the percentage conversion can be found [here](#). Grade points indicated are for courses with 1.0 credit value. Where the course credit is greater or less than one credit, the grade points are adjusted proportionately.

## **Course Sharing Websites and Copyright**

Classroom teaching and learning activities, including lectures, discussions, presentations, etc., by both instructors and students, are copy protected and remain the intellectual property of their respective author(s). All course materials, including PowerPoint presentations, outlines, and other materials, are also protected by copyright and remain the intellectual property of their respective author(s).

Students registered in the course may take notes and make copies of course materials for their own educational use only. Students are not permitted to reproduce or distribute lecture notes and course materials publicly for commercial or non-commercial purposes without express written consent from the copyright holder(s).

## **Student Rights and Responsibilities at Carleton**

Carleton University strives to provide a safe environment conducive to personal and intellectual growth, free of injustice and characterized by understanding respect, peace, trust, and fairness.

The [Student Rights and Responsibilities Policy](#) governs the non-academic behaviour of students. Carleton University is committed to building a campus that promotes personal growth through the establishment and promotion of transparent and fair academic and non-academic responsibilities.

## Deferred Term Work

In some situations, students are unable to complete term work because of illness or other circumstances beyond their control, which forces them to delay submission of the work.

1. Students who claim illness, injury or other extraordinary circumstances beyond their control as a reason for missed term work are held responsible for immediately informing the **instructor** concerned and for making alternate arrangements with the instructor and in all cases this must occur **no later than three (3) working days after the term work was due**. The alternate arrangement must be made before the last day of classes in the term as published in the academic schedule. Normally, any deferred term work will be completed by the last day of term. In all cases, formative evaluations providing feedback to the student should be replaced with formative evaluations. In the event the altered due date must extend beyond the last day of classes in the term, the instructor will assign a grade of zero for the work not submitted and submit the student's earned grade accordingly; the instructor may submit a change of grade at a later date. Term work cannot be deferred by the Registrar.
2. In cases where a student is not able to complete term work due to illness or injury for a significant period of time/or long term, the instructor and/or student may elect to consult with the Registrar's Office (undergraduate courses) or Graduate Registrar (graduate courses) to determine appropriate action.
3. If a student is concerned the instructor did not respond to the request for academic accommodation or did not provide reasonable accommodation, the student should consult with the department/school/institute chair/director. If a mutually agreeable accommodation to complete course requirements prior to the course grade submission deadline cannot be achieved, the Associate Dean will become involved. If academic accommodation is not granted, and the student receives word **after** the academic withdrawal deadline, the student may submit a petition to the Registrar's Office (undergraduate courses)/Graduate Registrar (graduate courses) for a final grade of WDN (Withdrawn) in the course(s). If academic accommodation is not granted, and the student receives word **prior** to the academic withdrawal deadline, the student may elect to withdraw from the course(s).
4. Furthermore, if academic accommodation is granted, but the student is unable to complete the accommodation according to the terms set out by the instructor as a result of further illness, injury or extraordinary circumstances beyond their control, the student may submit a petition to the Registrar's Office (undergraduate courses)/Graduate Registrar (graduate courses). Please note, however, that the course instructor will be required to submit an earned final grade and further consideration will only be reviewed according to established precedents and deadlines. [More information of deferred Term Work](#)

## Deferred Final Exams

Students who are unable to write a final examination because of a serious illness/emergency or other circumstances beyond their control may apply for accommodation. Normally, the accommodation for a missed final examination will be granting the student the opportunity to write a deferred examination. In specific cases when it is not possible to offer a deferred examination, and with the approval of the Dean, an alternate accommodation may be made.

The application for a deferral must:

1. be made in writing to the Registrar's Office **no later than three working days after the original final examination or the due date of the take-home examination**; and,

2. be fully supported by appropriate documentation and, in cases of illness, by a medical certificate dated no later than one working day after the examination, or by appropriate documents in other cases. Medical documents must specify the date of the onset of the illness, the (expected) date of recovery, and the extent to which the student was/is incapacitated during the time of the examination. The University's preferred medical form can be found at the Registrar's Office [here](#).

[More information on Final Exam Deferrals](#)  
[Registrar's Office "Defer an Exam" page](#)

## Financial vs. Academic Withdrawal

Make sure that you are aware of the separate deadlines for Financial and Academic withdrawal!

Making registration decisions in Carleton Central involves making a financial and academic commitment for the courses you choose, regardless of attendance. If you do not attend, you must withdraw in [Carleton Central](#) within the published deadlines to cancel your registration. A fee adjustment is dependent on registration being canceled within the published [fee deadlines](#) and dependent on your course load. A course dropped after the deadline for financial withdrawal will receive a grade of Withdrawn (WDN), which appears on your official transcript.

Even if you miss the deadline for financial withdrawal, you might decide to drop a course to avoid a failure or a poor grade showing up on your student record and bringing down your CGPA. It is your responsibility to drop the course via Carleton Central within the published [deadlines](#) (see Academic Withdrawal).

If you are considering withdrawing from a course, you may want to talk to an advisor first. Course withdrawal may affect your student status, as well as your eligibility for student funding, immigration status, residence accommodation and participation in varsity sports, etc. Additionally, remember that once you choose your courses, you must use the "Calculate amount to pay" button to determine the correct amount of fees to pay.

Carleton Central is your one-stop shop for registration activities. If you are interested in taking a course, make sure to complete your registration. Simply attending a course does not mean you are registered in it, nor is it grounds for petition or appeal.

## Student Mental Health

It is not uncommon for students to experience a range of mental health challenges that significantly impact their academic success and overall well-being. Carleton has begun to address this problem by developing a [Mental Health Framework](#).

In addition, to help ease the stress and aid students' transition to university life, a new compassionate [First-Year Grading Policy](#) has come into effect, which will automatically convert all F grades in a student's first two terms to NR ("No Record") and allow students to convert any passing letter grade (up to 2.0 credits) to CR ("Credit"). Courses that receive an NR designation will not be included on a student transcript, and CR courses will not be factored into a student's CGPA.

A number of mental health resources are available to students, and can be found at the [Mental Health and Well-Being website](#).
