Notice of Liability for Benefits

Your employer has entered into an agreement with The Canada Life Assurance Company whereby the Healthcare and Dentalcare benefits outlined in this booklet are uninsured and your employer has liability for them.

This means that the Healthcare and Dentalcare benefits are:

- an unsecured financial obligation and are payable from your employer's net income, retained earnings or other financial resources; and
- not underwritten by a licensed insurer or regulated insurer.

All claims will, however, be processed by Canada Life.

If British Columbia law applies, the giving of this notice exempts your employer from the requirements under the Financial Institutions Act (British Columbia).

If Quebec law applies, any uninsured benefit is not under the supervision and control of the Autorité des marchés financiers.

COMMENCEMENT AND TERMINATION OF COVERAGE

You are eligible to participate in the plan on the date of engagement at Carleton University if you are covered under the Ontario Health Insurance Plan (OHIP) or University Health Insurance Plan (UHIP).

- You and your dependents will be covered as soon as you become eligible.

You may waive health and/or dental coverage if you are already covered for these benefits under your spouse's plan. If you lose spousal coverage you must apply for coverage under this plan. If you do not apply within 31 days of loss of such coverage, or you were previously declined for coverage by Canada Life, you and your dependents may be required to provide evidence of good health acceptable to Canada Life to be covered for health benefits, and may be declined for or offered limited dental benefits.

- You must be actively at work when coverage takes effect, otherwise the coverage will not be effective until you return to work.

Increases in your benefits while you are covered by this plan will not become effective unless you are actively at work.

Your coverage terminates when your employment ends, you are no longer eligible, or the plan terminates, whichever is earliest.

- Your dependents' coverage terminates when your coverage terminates or your dependent no longer qualifies, whichever is earlier.
- Your coverage may be extended if it would have terminated because you are not actively at work due to disease or injury, temporary lay-off or leave of absence. See your employer for details.
- When your coverage terminates, you may be entitled to an extension of benefits under the plan. See your employer for details.

Survivor Benefits

If you die while your coverage is still in force, the healthcare and dentalcare benefits for your dependents will be continued as follows:

- for non-retired employees who are past the normal retirement age, and active employees who would be eligible to retire, until the end of the month in which they cease to be qualified dependents, or the due date of the first payment to which they have not made a required contribution for survivor coverage, whichever happens first.
- for all other non-retired employees, for 3 months or until they no longer qualify, whichever happens first.

Normal Retirement Date

Your normal retirement date is:

- The first day of September coinciding with or next following the date you reach age 65 if you joined the plan before July 1, 1957
- The first day of July closest to the date you reach age 65 if you joined the plan on or after July 1, 1957

DEPENDENT COVERAGE

Dependent means:

- Your spouse, legal or common-law.

A common-law spouse is a person who has been living with you in a conjugal relationship for at least 12 months or, if you are a Quebec resident, until the earlier birth or adoption of a child of the relationship.

- Your unmarried natural, adopted, foster or step-child, including any natural child of an unmarried minor dependent and any other unmarried child for whom you have been appointed legal guardian for all purposes by a court of competent jurisdiction, under age 21, or under age 25 if they are full-time students.

Note: If you are a Quebec resident, full-time students are covered for prescription drug benefits until age 26.

Children under age 21 are not covered if they are working more than 30 hours a week, unless they are full-time students.

Children who are incapable of supporting themselves because of physical or mental disorder are covered without age limit if the disorder begins before they turn 21, or while they are students under 25, and the disorder has been continuous since that time.

BENEFICIARY DESIGNATION

You may make, alter, or revoke a designation of beneficiary as permitted by law. Any designation of beneficiary you made under your employer's previous policy prior to the effective date of this policy applies to this policy until you make a change to that designation. You should review your beneficiary designation from time to time to ensure that it reflects your current intentions. You may change the designation by completing a form available from your employer.

HEALTHCARE

A deductible may be applied before you are reimbursed. All expenses will be reimbursed at the level shown in the **Benefit Summary**. Benefits may be subject to plan maximums and frequency limits. Check the **Benefit Summary** for this information.

The plan covers customary charges for the following services and supplies. All covered services and supplies must represent reasonable treatment. Treatment is considered reasonable if it is accepted by the Canadian medical profession, it is proven to be effective, and it is of a form, intensity, frequency and duration essential to diagnosis or management of the disease or injury.

Covered Expenses

- Ambulance, including air ambulance when provided by a licensed ambulance company. Transportation to the nearest centre where adequate treatment is available, from one treatment centre to another on the recommendation of the attending physician, or from a treatment centre to the patient's residence on the recommendation of the attending physician

If the services of a registered nurse are required during an air ambulance flight, nursing services and return air fare for the registered nurse are also covered.

- Hospital confinement or home nursing care if it represents acute or convalescent.

Acute care is active intervention required to diagnose or manage a condition that would otherwise deteriorate.

Convalescent care is active treatment or rehabilitation for a condition that will significantly improve as a result of the care and follows a 3-day confinement for acute care.

- The plan covers preferred accommodation in a hospital, excluding chronic care, long term care and palliative care, when provided in Canada.

For hospital accommodation, for a visiting scholar, the plan covers the hospital's semi-private rate in Ontario. For all other employees, the plan covers the difference between the hospital's semi-private and standard ward rates.

For out-of-province hospital accommodation, for a visiting scholar, the plan covers the hospital's semi-private rate in Ontario. For any other employee, the plan covers any difference between the hospital's semi-private rate and the government authorized allowance in your home province.

The plan also covers the hospital facility fee related to dental surgery and any out-of-province hospital out-patient charges not covered by the government health plan in your home province.

Limitation

Residences established primarily for senior citizens or which provide personal rather than medical care are not covered.

- The plan covers home nursing services of a registered nurse, a registered practical nurse if the person is a resident of Ontario or a licensed practical nurse if the person is a resident of any other province, when services are provided in Canada.

Nursing care is care that requires the skills and training of a professional nurse, and is provided by a professional nurse who is not a member of the patient's family.

You should apply for a pre-care assessment before home nursing begins.

- Drugs and drug supplies described below when prescribed by a physician or other person entitled by law to prescribe them, and provided in Canada.
 - Drugs which require a written prescription according to the Food and Drugs Act, Canada or provincial legislation in effect where the drug is dispensed, including oral contraceptives
 - Injectable drugs including vitamins, insulins and allergy extracts. Radium and drugs used for radioactive isotope treatment are covered. Syringes for self-administered injections are also covered.
 - Disposable needles for use with non-disposable insulin injection devices, lancets, test strips, alcohol swabs and sensors for flash glucose monitoring machines
 - Extemporaneous preparations or compounds if one of the ingredients is a covered drug
 - Fertility drugs
 - Certain other drugs that do not require a prescription by law may be covered. If you have any questions, contact your plan administrator before incurring the expense.

Unless the prescriber has prescribed a drug by its brand name and has specified in writing that the product is not to be interchanged, the plan will cover only the cost of the lowest priced equivalent generic drug.

For drugs eligible under a provincial drug plan, coverage is limited to the deductible amount and coinsurance you are required to pay under that plan.

- Rental or, at the plan's discretion, purchase of certain medical supplies, appliances and prosthetic devices prescribed by a physician including but not limited to:
 - continuous positive airway pressure machines (CPAP), automatically-adjusting positive airway pressure machines (APAP), bilevel positive airway pressure machines (BiPAP) and variable positive airway pressure machines (VPAP) combined to one device every 5 years. - Radium therapy, radioactive isotopes and diagnostic laboratory and imaging procedures performed in the person's province of residence are covered when that type of procedure is not listed as an insured procedure under their provincial government plan. For greater certainty, a procedure is not eligible for coverage if a person can choose to pay for it, in whole or in part, instead of having the procedure covered under their provincial government plan

- Out-of-hospital services of a qualified massage therapist when prescribed by a physician, a nurse practitioner or a midwife

A sound tooth is any tooth that did not require restorative treatment immediately before the accident. A natural tooth is any tooth that has not been artificially replaced

How to Make a Claim

- **Claims for expenses incurred in Canada, for paramedical services and visioncare**, may be submitted online. To use this online service you will need to be registered for GroupNet for Plan Members and signed up for direct deposit of claim payments with eDetails. For online claim submissions, your Explanation of Benefits will only be available online.

Online claims must be submitted to Canada Life as soon as possible, but no later than 6 months after you incur the expense.

You must retain your receipt for 12 months from the date you submit your claim to Canada Life as a record of the transaction, and you must submit it to Canada Life on request.

- **For all other Healthcare claims**, access GroupNet for Plan Members to obtain a personalized claim form or obtain form M635D from your employer. Complete this form making sure it shows all required information.

Attach your receipts to the claim form and return it to the Canada Life Benefit Payment Office as soon as possible, but no later than 18 months after you incur the expense.

- **For drug claims**, your employer will provide you with a prescription drug identification card. Present your card to the pharmacist with your prescription.

Before your prescription is filled, an Assure Claims check will be done. Assure Claims is a series of seven checks that are electronically done on your drug claim history for increased safety and compliance monitoring. This has been designed to improve the health and quality of life for you and your dependents. Checks done include drug interaction, therapeutic duplication and duration of therapy, allowing the pharmacist to react prior to the drug being dispensed. Depending on the outcome of the checks, the pharmacist may refuse to dispense the prescribed drug.

COORDINATION OF BENEFITS

- Benefits for you or a dependent will be directly reduced by any amount payable under a government plan. If you or a dependent are entitled to benefits for the same expenses under another group plan or as both an employee and dependent under this plan or as a dependent of both parents under this plan, benefits will be co-ordinated so that the total benefits from all plans will not exceed expenses.
- You and your spouse should first submit your own claims through your own group plan. Claims for dependent children should be submitted to the plan of the parent who has the earlier birth date in the calendar year (the year of birth is not considered). If you are separated or divorced, the plan which will pay benefits for your children will be determined in the following order:
 1. the plan of the parent with custody of the child;
 2. the plan of the spouse of the parent with custody of the child;
 3. the plan of the parent without custody of the child;
 4. the plan of the spouse of the parent without custody of the child

You may submit a claim to the plan of the other spouse for any amount which is not paid by the first plan.
