Pre-Retirement Information

2024

1. Personal Savings: RRSPs, TFSAs, Other Assets

RRSPs: Registered Retirement Plans

- ■The lesser of 18% of earned income in the previous year to a maximum and the annual RRSP limit (2024 annual RRSP limit is \$31,560)
- ■RRSP contributions reduces taxable income and the savings grow tax-free. Withdrawals from an RRSP are taxable
- ■Check your RRSP room on your Notice of Assessment or by My Account, MyCRA mobile app, Tax information Phone Service (TIPS)
- Carleton University sponsors a <u>Group RRSP</u> with a payroll contribution option, which reduces your taxable income per contribution per pay

RRSPs: Registered Retirement Plans

- ■By age 71 you must convert your RRSP to a <u>retirement vehicle</u>:
 - Registered retirement income fund (RRIF)
 - •Minimum annual withdrawals are required
 - Annuity
 - An annuity is a form of insurance or investment. You make a lump-sum payment up front and then receive a fixed amount of money each year for a certain period of time
 - Annuities are available through insurance companies

TFSAs: Tax Free Savings Accounts

- •Contributions are made with after tax money. Investment income accumulations tax-free and withdrawals are tax-free
- Withdrawals do not impact means-tested government benefits such as GIS
- You accumulate TFSA contribution room for each calendar year since 2009
- ■TFSA program details

Annual TFSA dollar limit	\$
2009 to 2012 each year	5,000
2013 and 2014 each year	5,500
2015	10,000
2016 to 2018 each year	5,500
2019 to 2022 each year	6,000
2023	6,500
2024	7,000
Life time room as of 2024	95,000

Other Assets

- ■Savings and investments
- Property
- ■Canada Savings Bonds

Work: Carleton University Retirement Plan

- ■Your pension plan is a hybrid plan of a money purchase plan with a defined benefit minimum guarantee
 - Pension Summary is available for more details
- ■Your pension contributions are credited to an account set up on your behalf called the Money Purchase Component Account (MPC). The contributions formula is based on base earnings:

Work: Carleton University Retirement Plan

Your basic pension benefit will be the greater of:

- (1) Pension that can be provided by your Money Purchase Account, or (2) Minimum Guarantee Pension Calculation
- •If you made Additional Voluntary Contributions (AVC) while an active pension member, your annual pension benefit will be increased by the amount of pension that can be provided by the assets in your AVC account
- •After you retire, your pension will be adjusted each year based on the average investment experience of the Pension Fund for that year and the three preceding years less 6%

Work: Carleton University Retirement Plan

Money Purchase Pension Calculation

■A pension is calculated from the total balance to your credit in your MPC, based on the actuarial tables

•Minimum Guarantee Pension Calculation

Your years of Credited Service is multiplied by the sum of:

1.29% of the average of your highest 5-years' pensionable earnings up to the 5-year average of the YMPE

Plus

2% of the average of your highest 5 years' pensionable earnings in excess of the 5-year average of the YMPE

Work: Carleton University Retirement Plan

Normal Retirement Date (NRD)

- ■Your NRD is the July 1st that is closest to your 65th birthday
- If you are born between July 1 and December 31st you will be eligible to retire a little bit before you turn 65
- If you are born between January 1 and June 30th you will have to wait until after your 65th birthday to receive your full retirement benefit

Early Retirement

- ■Early retirement is permitted on attainment of age 55 or 10 years prior to your NRD.
- Pension calculations are actuarily reduced to reflect that you are retiring prior to NRD

Work: Carleton University Retirement Plan

Pension Estimate

- You can obtain pension estimates online using the retirement planner at <u>Login Page (carleton-ret.ca)</u>
- •Follow the retirement planner guide for detailed instructions
- ■Your pension estimate will determine if your pension will be based on the Minimum Guarantee Pension or the Money Purchase Pension
- ■NOTE: If you are receiving less than full salary or working beyond your NRD, some of the amounts shown may be overstated or understated. In the event of a breakdown of a spousal relationship, the amounts indicated in this statement could be reduced.

Pension Estimate Sample

To finalize your retirement, you will need to make a selection on the "form of pension" that you would like.

Once selected the form of pension can never be changed.

Form of Pension

- Normal pension –The normal form of pension is payable for your lifetime and guaranteed for a minimum of five years
 If you die after your retirement but before receiving 60 monthly payments, the balance of the guaranteed payments will be paid to your beneficiary
- •Single Life pension -Payable for your lifetime only and stops on your month of death regardless of the number of payments that have been made
- ■Life Guaranteed 10 or 15 yrs Payable for your lifetime, except that a minimum of 120 or 180 monthly payments are guaranteed
- ■Joint and Survivor Payable for your lifetime with part or all of the benefit continuing to your surviving spouse after your death

NOTE: pensions are subject to change annually based on pension fund performance. Calculations are for illustration purposes only

Work: Carleton University Retirement Plan

<u>Form of Pension – Single Life examples</u>
