

Design Internship Opportunity

Title: UX Design Intern

Type: Full-time or Part-time, Temporary

Term: Summer 2021 (May - August)

Pay Rate: \$15.00 / hour

Description: The School of Industrial Design Computing & Technology Committee is looking for a knowledgeable and skilled design student to work on a number of projects over the summer term. These projects will focus on research and strategy development with an emphasis on user experience design.

The UX Design Intern will work under the supervision of Professor Tim Haats and will engage with multiple stakeholders including the Computing & Technology Technician, School staff and faculty, and other University personnel. Projects will revolve around planning, organizing, and implementing School resources, tools, and technologies to improve operations at all levels.

- Requirements:**
- 3rd or 4th year standing (minimum) in Industrial Design or another relevant program at Carleton
 - Portfolio showcasing strong research and design skills
 - Ability to work independently and remotely
 - Good organizational and time-management skills
 - Ability to work at macro and micro levels
 - Attentive to detail
 - Strong communication skills
 - Experience in UX design and/or strategic design considered an asset
 - Technical knowledge of software and IT considered an asset

If interested in this internship opportunity, please send your resume, a cover letter, and a portfolio to tim.haats@carleton.ca no later than **Tuesday, May 4th, 2021**.
