

SHEPP Industrial Design Inc. is a Toronto based design consultancy with a focus on Hi-Tech, Med-Tech, Safety and Consumer products. www.SHEPPiD.com

Our culture is vibrant, energetic, honest, open minded and most of all fun. Our personal interests are health and wellness, sports, fitness, cars, trucks, motorcycles, boating, bicycles, climbing, camping, hiking, skateboarding, snowboarding, and surfing. We are a small dynamic team of Industrial Designers. We are not only a design consultancy, we also have an in-house prototyping, manufacturing, product assembly, packaging and logistics facility.

Position: Industrial Design - Summer Internship

This position is suited for someone that is interested in helping to develop, manage and expand our in-house brand - GNARWALL (www.GNARWALL.co) This position will have you involved with everything from initial idea generation to design for manufacturing, creating production work instructions, and beyond. The role may also include market research, user testing, website development, photo shoots, content creation, packaging design, graphic design, etc.

Currently enrolled in a Bachelor of Industrial Design Program the candidate should have excellent verbal and visual communication, great sketching ability, 3D CAD Modelling (Solidworks) and presentation layout skills. (CS Suite, PowerPoint or Acrobat) You should be eager to learn, able to learn from your mistakes and be filled with positive energy.

This opening is an in-office position. Working from home is possible when the project permits.

We are looking forward to reviewing your CV, Cover Letter and Portfolio. (<15mB)

Please send submission to terrence@sheppid.com and cc adam@sheppid.com

Thank you for your interest!

Adam and the SHEPPiD / GNARWALL team
