

**Job Posting: Industrial Designer, Intern**

**Type:** Contract 36-40 hours/week (Mon.-Fri., 8:00am – 4:30pm)

**Duration:** Summer Internship May 2025 – August 29, 2025

**Location:** 376 Magnetic Drive, North York, ON M3J 2C4

**Compensation:** \$18.50 - \$19 per hour

**Responsibilities:**

We are looking for an intern to join our design team and work on all parts of our product development process. You will work closely with industrial designers to complete a variety of tasks that contribute to a smooth process of product creation and improvement. You'll have the opportunity to work on product materials that are being developed and then sold in retail stores. Includes:

- Product CMF (colour, material, fabric) updating
- Testing product samples and prototypes
- Document and track results and information
- Conduct market research
- Assist with user guides, manuals creation and templates

**Skills and Qualifications:**

- Degree for Industrial Design (or min. 3 years completed towards degree)
- Sweats the small details and organized
- Experience with tools like In-Design program and SolidWorks is a bonus

**About the Company:**

Midland Power is a Canadian owned and operated company based in Toronto, that provides top products to retail partners and customer support. We design, source, improve, and distribute a large catalogue of power tools, powersports equipment, and battery powered products across North America.

**What we offer:**

We offer a positive workplace culture built on teamwork that drives us to be successful both personally and professionally, with a healthy work life balance.

To support commuting to the office, we'll provide a TTC Pass/PRESTO card / free onsite parking.

**Apply by May 20, 2025** by sending your resume to [mary@midlandpowerinc.com](mailto:mary@midlandpowerinc.com)
