| Position Type: | Co-op Employment |
| Job Title: | Junior UX Designer |
| Job Location: | National Capital Region |
| Job Description: | <p>Solace is creating a fast-paced, focused team to deliver a new cloud-based product using the latest in modern web-based technologies and tools. If you want to be immersed in a team responsible for defining, architecting, and delivering brand new innovative cloud services, then this position is for you.</p> <p>The Junior User Experience Designer will get the opportunity to design new and existing features for Solace's cloud based software products. The role will have multiple responsibilities throughout the work term with a focus on visual design and user experience.</p> |
| Job Requirements: | <p>These responsibilities include but are not limited to:</p> <ul style="list-style-type: none"> - Developing a style guide to be used across the product portfolio - Design new features with consideration to both user and business needs - Conduct user research and design thinking workshops to better understand that problem space - (Optional) Build animation and graphics to incorporate into our product is an option for candidates with this skill set but not mandatory. - (Optional) Building HTML and CSS web components is an option for candidates with this skill set but not mandatory. Learning these skills on the job is welcome for any interested candidate. <p>Working at Solace is a great experience for co-ops. We hire an average of 26 co-op students every semester with many of them returning back for repeated terms and resulting in full-time positions. In addition to the great work you'll do, we also have many corporate events like our Oktoberfest celebration or our monthly cake-day to celebrate birthdays. Our dedicated game room is constantly full of people during lunch enjoying the multiple gaming systems or the table tennis and foosball tables.</p> <p>The Ideal Candidate Is:</p> <p>A self-motivated learner who goes above and beyond in their quest for learning new tools and technologies</p> <p>A team player who is able to collaborate with cross-functional teams, committed to agile methodology</p> <p>A good communicator who is able to communicate ideas in a clear and concise manner</p> <p>Required Skills:</p> <p>Proficient in graphical design applications such as Sketch, Adobe Illustrator and Zeplin</p> <p>Experience creating designs for web-based applications</p> |

A focus on delivering pixel-perfect visual designs in their projects
Familiar with HTML, CSS, JavaScript, React
