

O2 industries is shaping the future of personal protective equipment. We are looking to add a highly creative and motivated Industrial Design Intern to our growing team. In this role, you will support the product development team in bringing the next generation of personal protection solutions to market. You bring a strong range of hands on design skills along with a strategic user centric approach to problem solving.

Responsibilities:

Support the product development team.

Work hand in hand with senior team members to develop concepts and creatively solve problems across O2 Industries growing portfolio of products.

What we see in you:

3rd year completion of a Bachelor's of Industrial Design degree or recent graduate from an accredited Industrial Design program.

Ability to clearly show your thought process and communicate your ideas to multidisciplinary teams.

Great written and verbal communications skills.

Experience developing/refining ideas through prototyping.

Experience in 3D CAD modeling.

Strong grasp of user centric design methodologies

Strong visual communication skills with a keen eye for detail.

What we need from you:

Current CV.

Cover letter outlining your goals for the internship/Co-op position which will last 5-6 months depending on the needs of the O2 team. Extensions will be based on merit.

A portfolio of work which demonstrates your thought process.

To apply please email Kevin Armour at kevin@O2canada.ca or Stacey Lee-Scott at stacey@o2industries.com

We embrace diversity and are committed to creating an inclusive workplace. We welcome applications from all qualified persons.
