[www.SHEPPiD.com](http://www.SHEPPiD.com) (Design Consultancy)

[www.GNARWALL.co](http://www.GNARWALL.co) (Product Business)

**SHEPP Industrial Design** is a Toronto based design consultancy with a focus on Hi-Tech, Med-Tech, Safety and Consumer products.

Our culture is vibrant, energetic, honest, open minded and fun. Our personal interests are health and wellness, sports and fitness, climbing, boating, bicycles, skateboarding, snowboarding, and surfing. We are a small team that work together on a large number of projects for a small number of clients.

SHEPP INDUSTRIAL DESIGN INC. is looking for an Industrial Design Intern.

This position is suited for someone that is interested in helping to develop, manage and expand our in-house brand. GNARWALL. This position will have you involved with everything from initial idea generation to design for manufacturing and beyond. The role may also include website development, photography and other areas depending on interest and capability.

Currently enrolled in a Bachelor of Industrial Design Program the candidate should have excellent verbal and visual communication, great sketching ability, 3D CAD Modelling (SolidWorks) and presentation layout skills. (CS Suite, PowerPoint or Acrobat) You should be eager to learn, have lots of positive energy and be a team player.

The intern must be able to work directly in the office. Work from home is possible when projects permit. The majority of the internship would be directly out of the Etobicoke Ontario office, where the student will design, develop, prototype and build physical products under direction from the SHEPPiD team.
