**Role:** Industrial Design Coop - January 2018  
**Team:** Industrial Design  
**Hiring Lead:** Jose Figueroa

**Application Requirements:**

Apply to the role in Carleton’s co-op portal by October 26th or send your resume and portfolio to caitlin.mulroney@thalmic.com.

**About You:**

You are a 3rd year or later Industrial design student with a strong interest in technology and where it will take us.

Your sketching and CAD skills are the envy of your peers, and your designs are as thoughtful as they are beautiful. You are considered a top talent in your class and your portfolio demonstrates you go above and beyond studio assignments.

You are thirsty for knowledge and eager to work on real world problems with cross disciplinary teams. You seek constructive feedback to improve your skills.

You will be considered an integral part of the design team during your coop, and your work will have an impact on future products.

**Main objectives:**

1. **Within 15 days, immerse yourself**  
   - Familiarize yourself with the company culture and meet with your design team mentor.  
   - Get up to date with current projects.  
   - Help the design team get organized and assist on projects as requested.

2. **Within 30 days, participate and provide feedback**  
   - Involved in assigned projects and meetings, providing ideas and collaborating with teams to provide solutions.  
   - Create sketches, CAD models and 3D renders when necessary for prototyping and concept iteration  
   - Observe and participate in user testing.

**What You’ll Need:**

- Must be working towards a degree in Industrial Design or similar. (Undergraduate and Masters candidates welcome to apply).
- Portfolio that demonstrates strong design skills (sketching, CAD, mood boards, CMF) and reflects a thorough development process.
- Understanding of materials and finishes, manufacturing methods.
• Excellent written, listening and oral communication skills.
