

## Mac Laptop (HDMI)

To sign out an HDMI cable and/or adapter, visit the IMS Classroom Technology Support office in Loeb D283. Once you have the HDMI cable and/or adapter, you will be able to connect it to your laptop and the classroom projector(s) by using the HDMI port located inside the teaching console.

### STEP 1

Connect one end of the HDMI cable to the port inside the equipment cabinet (labeled HDMI), and connect the other end of the HDMI cable to your laptop.

**Note:** You may need to use an adapter

### STEP 2

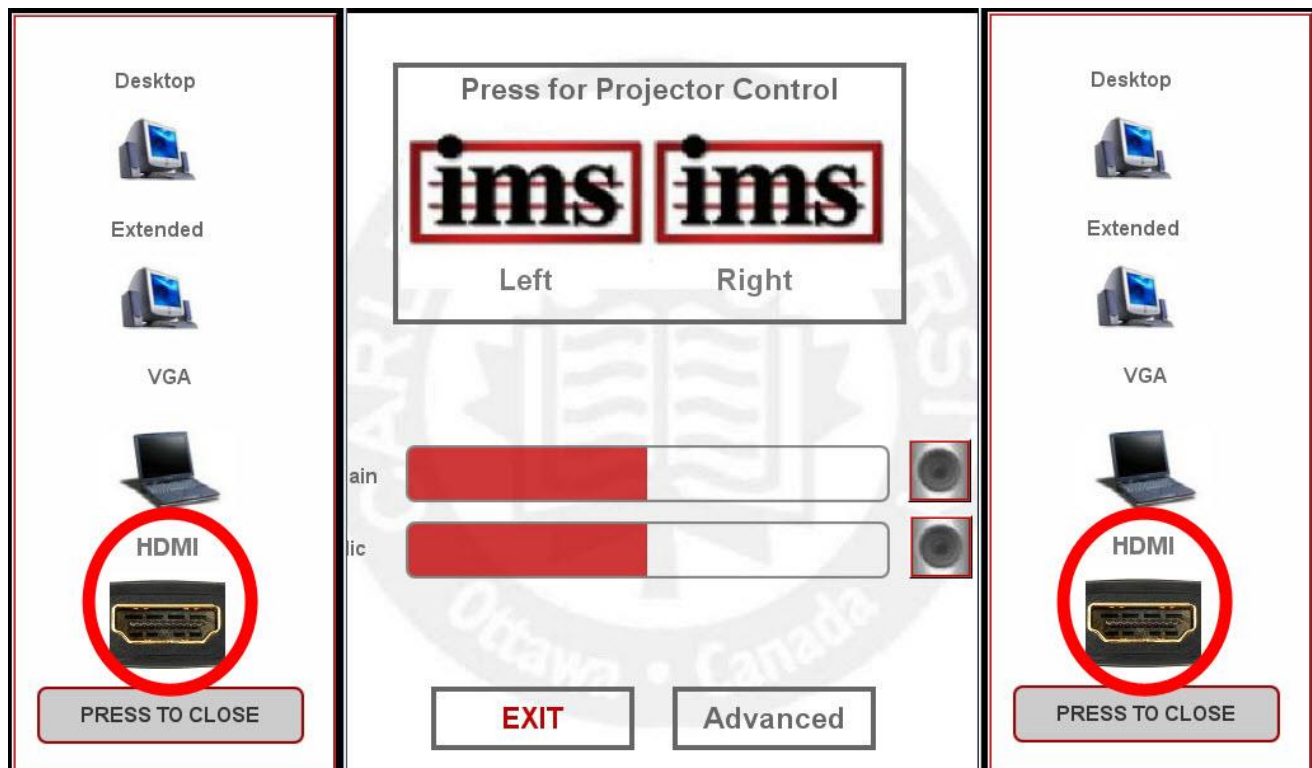

In **single** projection rooms with a keypad, select "HDMI"

In **single** projection rooms with a touch panel, select “Laptop” then “HDMI”

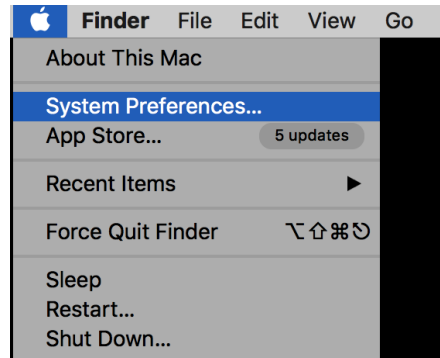

## Laptop Control

In **dual** projection rooms, select “Computer” or “Laptop”, then “HDMI”

**Note:** You may need to toggle the video output of your laptop. On a Mac-based laptop, navigate to the System Preferences by clicking on the Apple icon in the top left corner of your desktop display and select System Preferences.

From the System Preferences menu, select Displays

From the Displays menu, ensure "Mirror Displays" is selected
