

How to Calibrate the SMART Sympodium Pen

Step 1: Go to Start → All Apps → SMART Technologies → Product Driver Orient OR SMART Settings.

Step 2: In the SMART Settings window, click on either Orient/Align the SMART Product button.

Step 3: When the following screen appears, use the pen/stylus to touch each target (**Red Cross**) as it moves around to the individual calibration points. Once complete, the SMART Sympodium is ready to use.
