UMA

4.1 Language of Instruction

The language of instruction at UMA is Spanish.

A B1 level of Spanish is recommended in accordance with the Common European Framework of References for Languages (CEFR), but it is not required to submit any certification.

However, some faculties require a minimum accredited level of Spanish due to the peculiarity of the subjects. It's recommended to verify this language level directly in the subject teaching guide (See point 4.3)

4.2 Courses Taught in English

The Language of instruction at UMA is Spanish, although there are some courses offered in English. However, there is a limit of exchange students per course, and so the availability of these subjects cannot be guaranteed.

In this link you will find the list of courses taught in English for 2024-2025 that is usually updated at the beginning of July 2023:

SPANISH LANGUAGE COURSE FOR INTERNATIONAL EXCHANGE STUDENTS

The Spanish Course for Erasmus+ and International Exchange Students allows students to consolidate and improve their Spanish language skills, in order to improve understanding of the subjects that they will be studying at UMA.

This course is voluntary and it is offered and arranged by the International Centre for Spanish (CIE) located in the following address:

Address Avenida de la Estación s/n. El Palo 29017 - Málaga
Tel.+34951952738 - Fax+34951952742

Email cie@uma.es

Web <http://www.uma.es/centrointernacionaldeespanol/>

It is important to consider that the ECTS credits obtained with this course will NOT be included in the Transcript of Records. Nevertheless, you will receive a certificated Diploma from the CIE in which states the number of ECTS credits obtained after completing this course. The recognition of these credits will depend entirely on your home university criteria.

In order to apply for it, you will receive an email from the CIE with the instructions that you will need to follow and the application procedure. For any further doubts, please contact them on cie@uma.es

4.4 Academic Programme

The academic year runs from September/October to June (in some cases early July) with exams offered in February for first term courses and finals in late June and early July for annual and second term courses which test cumulative knowledge of the entire course.

There is also a second examination call in September/ July only for students who did not pass at any ordinary examination call. Exam Calendars must be consulted on the website of each faculty/school.

Number of subjects: Spanish students normally take 5 subjects per term.

Number of hours per week: Students spend 20-25 hours in lectures.

Number of weeks per term: 15 weeks + 3 or 4 weeks for exams.

MINIMUM LENGTH OF STAY

The minimum period of stay at UMA will be 4.5 months. This is the period necessary to complete the administrative and academic requirements. Students who will stay shorter will not be assessed and will not receive the Transcript of Records.

The length of the mobility could be inferior only when the mobility is aimed at doing research or practical courses in Medicine, Health Science or Fine Arts.

4.5 European Credit Transfer System (ECTS)

The European Commission has developed the European Credit Transfer System (ECTS) to help students make the most of their studies abroad. This system is a way of measuring and comparing learning achievements and transferring them from one institution to another. Likewise, it helps higher education institutions to enhance their co-operation with other institutions by improving access to information on foreign curricula and providing common procedures for academic recognition.

ECTS credits are a value allocated to modules to describe the student workload required to complete them. They reflect the quantity of work each course requires in relation to the total quantity of work required to complete a full year of academic study at the institution, that is, lectures, practical work, seminars, private work – in the laboratory, library or at home – and examinations or other assessment activities.

MAXIMUM CREDITS PERMITTED

In accordance with the European Commission and the new System of European Credit Transfer, exchange students accepted by UMA are obliged to take **NO MORE** than 60 credits for a full year and 30 credits for one semester.

30 **ECTS** credits for one semester | 60 **ECTS** credits for a full year

Note: As an exception UMA offers the flexibility to slightly increase this amount and allows students to enrol a maximum of 36 ECTS credits for one semester and 66 ECTS credits for full year in those cases where it is necessary.

MINIMUM CREDITS PERMITTED

EUROPEAN STUDENTS

1 course per semester

NON EUROPEAN STUDENTS

18 ECTS credits for one semester

36 ECTS credits for a full year

Note: Home institutions set the policy regarding the amount of credits obtained through an international exchange. Exchange students are responsible for being aware of these policies and procedures before starting the mobility.

4.6 Grading system

The grading system used by Spanish universities is based on specific attainment levels, rather than on a numerical scale. This is the equivalence between the Universidad de Malaga and the ECTS grading system:

SPANISH GRADING SCALE

ECTS GRADING SCALE

Matrícula de Honor (MH) – 10 con mención especial	Distinction (A)
Sobresaliente (SOB) 9-10	Excellent (A)
Notable (NOT) 8-8'99	Very Good (B)
Notable (NOT) 7-7'99	Good (C)
Aprobado (APR) 6-6'99	Satisfactory (D)
Aprobado (APR) 5-5'99	Sufficient (E)
Suspense (SUS) 0-4'99	Fail (Fx-F)
No presentado (N.P.)	Absent from Exam

Notice that the grade "Matrícula de Honor" is rarely given.

6.1 Accommodation

Renting a room in a shared flat with other students is the most popular way of living in Malaga. There is a great number of available shared flats to rent, but there is also a huge demand (specially in September and February).

There are also dormitories in Malaga, but unlike in many other countries, this option is not so popular among exchange students. Meals, laundry, cleaning and other services are usually included, but at the same time dormitories are more expensive than sharing a flat.

Another kind of accommodation in Malaga would be to stay with a Spanish family. This might be especially beneficial for those students who wish to practice Spanish.

UMA does not book accommodation for students, but it assists them via its International Hub completely free of charge, CIE (students enrolled in the Spanish course), the Accommodation Service (Servicio de Alojamiento) or ESN Málaga.

UMA has a General Library located in the Teatinos Campus and other libraries located in different schools and faculties of the University. The main aim of all these libraries is to ensure that the university community has access to scientific information contained in published material in order to meet study, research and teaching needs.

General library services available to the academic community include reading rooms with seating for 8,000 people; direct access to books and periodicals; check out system; bulletins (Boletín de Sumarios) summarising the contents of the latest issues or volumes available; the Information and Reference Service (Servicio de Información y Referencia); access to dictionaries, guides, catalogues, etc., located in the general library via data bases; interlibrary loans and photographic documentation (Préstamo Interbibliotecario y Fotodocumentación); and user training programmes.

You can search the titles available in the different libraries in <https://jabega.uma.es>

Further information about its opening hours and facilities can be found here: <https://www.uma.es/ficha.php?id=62379>

To take part in such activities or to use the university's sports facilities, apart from being enrolled at the university, students must register in the Sports Centre in order to obtain the student sports card, which gives access to sports facilities.

The Sports Centre is located in the Teatinos Campus and consists of a wide range of modern sports facilities. The facilities cover an area of more than 76,000 square meters, at the centre of which is the multiple sports areas, where different state-of-the-art sports units and equipment are located. The building also includes a swimming pool and a sports track, along with squash courts, bodybuilding room, gymnasium, dressing rooms and offices.

Living in Malaga

DISCOVER OUR CITY

8.1 Our culture

Malaga is a city with a rich historic and cultural tradition. It was founded by the Phoenicians around 800 B.C. and later colonised by Iberians, Greeks, Romans, Arabs and Christians. Its privileged position on the shores of the Mediterranean, its mild climate and the friendliness of its inhabitants have all meant that the capital of the Costa del Sol has sustained excellent trade and cultural relations all over the world throughout its history. Nowadays, Malaga is a modern, cosmopolitan and welcoming city with more than 600,000 inhabitants which has successfully developed its commercial, industrial and tourist sectors. The warmth of its inhabitants, climate and abundance of sunlight contribute to make Malaga a wonderful place to live.

WEATHER

Malaga is a Mediterranean city with a very mild climate. Winter temperatures very rarely drop below 10°C and in autumn and spring the average temperature is about 20°C, although evenings can be a lot cooler. The average rainfall in the region is normally quite low.

FESTIVITIES

Several festivities are held in Malaga every year. The most famous and meaningful ones are Semana Santa (Easter) and la Feria de Agosto (August Fair). However, there are other dates in which the city will be particularly cheerful and crowded: fiesta de San Juan (24th June), Fiesta de la Virgen del Carmen (16th July) and Carnavales (February).

GASTRONOMY

Andalusian gastronomy is based on the Mediterranean diet: local and fresh ingredients such as vegetables, fruit, fish and olive oil. Our cuisine, and our culture in general, is the result of a convergence of cultures. Romans, Arabs, Greeks, Phoenicians and Visigoths have all contributed to the history of the Andalusian gastronomy.

Tapas are small appetizers, which are served in bars and restaurants throughout Spain. Sometimes the price includes a drink. You can eat tapas that consist in a small portion of any type of meal.

Actually, you can have a full meal with tapas!

Specifically, the Gastronomy of Malaga is well-known for its “**espetos**”, which consists of a traditional way of cooking freshly-caught sea fish, most often sardines but also sea bream and even shellfish and calamari, speared on a long flat stick (espeto or espetada) and barbequed over a hot fire on the beach. Other Key product of the gastronomy in Malaga is the traditional Malaga sweet dessert wines, which are produced mainly from the Pedro Ximénez and Moscatel grape varieties.

Meals are served late in the evening compared with the rest of Europe: breakfast is normally eaten between 7.30 a.m. and 10.30 a.m. Lunch is served from 2 p.m. to 4 p.m. and dinner from 8.00 p.m. and 11 p.m. However, most of restaurants adapt their times to the European norms and will serve food earlier.
