OBW Summer Research Program (SRP)

Participate in a research project at a German university

Timing
- 2 or 3 months during the summer

Eligibility
- Canadian citizens or permanent residents
- Undergraduate and graduate students in science, engineering, and health science disciplines

Language competence
- No German-language prerequisite (with agreement of host professor)

Scholarships
- $2,600 - $3,500, depending on length of approved research stay
- Scholarship is processed after start of placement

Placements
- Students need to find their own placement — see our website for more details

Credits
- Contact your academic advisor for advice on whether academic credit is possible for the research contribution in Germany

Apply through the International Office of your home university
