

IST 2019 Book Sales Table

The IST 2019 organizing committee is planning to have a display of sustainability transitions related books available for purchase at the conference.

If you have a recent publication related to sustainability transitions which you would like to make available to participants at IST 2019, please see the following submission procedure.

Submission procedure

Please send the following information about your book to IST2019@carleton.ca with the subject line “Book Sales”:

- Author(s)
- Title
- Publication date (within the last few years, so participants may not have seen it before)
- Publisher
- ISBN

Please note

- By sustainability transitions related we mean of direct interest to the community of scholars who will be attending the event.
- We cannot promise that your book will be displayed. This will in part depend on timing, the efficiency and terms and conditions of the various publishers, and other factors.
- If we are overwhelmed with proposals, we may have to favor those who contact us first, or volumes with the most general appeal.
